PRICE FIVE CENTS

SOOKE TRAINS BEFORE OCT. 1

Plans of Canadian National Are Stated

Steam Trains for Logs and Heavy Freight

(Times Correspondence)
Sooke Harbor, Sept. 13.—It is the intention of the officials of the Canadian National Railways to have the promised motor car service in operation on the Victoria-Sooke line by the latter part of September.

It is also their hope there will be an additional steam train service in connection with the movement of logs, which will be available for the carriage of heavy freight.

This news, gratifying alike to the people of Sooke and the citizens of Victoria, has come from Alistair Fraser, General Solicitor for the Canadian National Railways, a letter from whom was read at a meeting of the Sooke Harbor Development Association.

Mr. Fraser's letter, dated at Toronto, August 17, was addressed to Hon. F. B. Carvell, K. C., Chairman of the Board of Railway Commissioners, with headquarters in Ottawa, and it, together with other correspondence regarding the opening of service on the line, was laid before the Sooke Association, Mr. Fraser wrote that from definite information he had received from the vice-president of the Canadian National Railways, the starting of the motor car service might be anticipated in the latter part of September.

Co-operated.
John A. Murray, J. P. president of the Sooke Harbor Development Association, addressing the members said the organization, in pressing for a service on the line, had received the wholehearted support of the Victoria Chamber of Commerce, the Victoria and Island Publicity Bureau, Hon. S. F. Tolmie, M. P. and Charles H. Dickie, M. P., and the united effort which had been made had evidently at last brought the result so much desired and which would prove so great a factor in the development of the whole country between Victoria and Sooke.

The Sooke body had not slackened its efforts for two years, he said. A letter had been written to Mr. Carvell thanking him for the interest he had taken in this matter, the president added.

It is the general expectation of the residents that with the operation of the Island line of the Canadian National Railways the whole district lying between Victoria and Sooke Harbor will rapidly develop. The lack of cheap and frequent

(Concluded on page 4.)

PREMIER KING IN KITCHENER

Warm Welcome for Him in City of Birth

Kitchener, Ont., Sept. 13.—Premier King is "back home," and his return this morning to his birthplace was marked both by the enthusiasm by which he was received and by his generous and friendly attitude toward the people of Kitchener. King is en route in honor of the Prime Minister's visit, and this afternoon gave a reception of his affection at a monster meeting at the Victoria Park. The day was not a political one in any sense, the Prime Minister in his utterances confining himself to warm words of appreciation of the welcome and to happy recollections of his boyhood days. This spirit seemed to have pervaded the whole occasion, the words of greeting from Mayor Charles Greb and W. T. Sasse, president of the Board of Trade, being in the nature of congratulation to a fellow townsman returning to his birthplace as the first citizen of Canada.

KIPKING DENIES U.S. STATEMENTS

Says He Did Not Criticize Republic's War Course

Declares U. S. Woman Correspondent's Report Unfounded

London, Sept. 13.—Rudyard Kipling, replying to an inquiry regarding his utterances as quoted by Clara Sheridan in The New York World, sent the Associated Press to-day the following telegram:
"Batmans, Burwas, Russes, Sept. 13.—I did not give Mrs. Sheridan an interview. I did not say things which I see she ascribes to me, and have not discontinued the habit of saying what I wish to say over my own signature. (Signed) 'Rudyard Kipling.'"

A brief message from Mr. Kipling denying he had given the interview or said the things he had been ascribed to him was printed in The London Times this morning. In the interview printed in The World Mr. Kipling was quoted as strongly criticizing lateness of the United States in entering the war, and her course at the close of and since the European struggle.

RAIL SETTLEMENT IS ANNOUNCED

One-third of Railways of U.S. Affected

Shophmen's Policy Committee Meets in Chicago

Washington, Sept. 13.—Virtual settlement of the railroad strike, as affecting from 35 to 40 per cent. of the railroads of the country, was announced late to-day by Secretary of Labor Davis on the basis of reports from the meeting in Chicago of the general policy committee of the striking shop craft unions.

In Chicago.
Chicago, Sept. 13.—A decision on settlement of the railroad shophmen's strike was predicted as a possibility late to-day as the general policy committee of the federated shop crafts went into session at 10:30 o'clock.

"We hope to reach a decision to-day," B. M. Jewell, head of the Railway Employees' Department of the American Federation of Labor, said. "I can predict nothing further than that."

TUBERCULAR EX-SOLDIERS AIDED

Toronto, Sept. 13.—The Canadian Red Cross Society has received the sum of \$1,582.23 from Colonel the Rev. F. G. Scott, of Quebec City, to be expended on behalf of tubercular soldiers in such way as the society may deem advisable. The money represents the royalty proceeds of Colonel Scott's book, "The Great War as I Saw It."

Co-operated.
John A. Murray, J. P. president of the Sooke Harbor Development Association, addressing the members said the organization, in pressing for a service on the line, had received the wholehearted support of the Victoria Chamber of Commerce, the Victoria and Island Publicity Bureau, Hon. S. F. Tolmie, M. P. and Charles H. Dickie, M. P., and the united effort which had been made had evidently at last brought the result so much desired and which would prove so great a factor in the development of the whole country between Victoria and Sooke.

STILL SEEKABLE RAILWAY CHIEF

Ottawa Ministers Have Not Yet Named Head

C.N.R. President Probably Will Not Be Canadian

Ottawa, Sept. 13.—The chairman of the Canadian National Railway board is still to be selected. Hon. George P. Graham, Acting Minister of Railways and Canals, in the absence of Hon. W. C. Kennedy, stated this positively to-day.

"The matter is not settled yet," said Mr. Graham. "At least, if it is so, I have not heard of it."

Mr. Graham was asked whether or not the man chosen for the post will not be a Canadian.

"The only thing I shall say is that we are going to get the best man possible for the position," he said. "He pointed out that the selection necessarily was a difficult one."

It is regarded as practically certain that the man chosen for the post will not be a Canadian.

During the morning, Mr. Graham received two members of the Canadian National board, E. R. Wood of Toronto, and R. T. Riley, of Winnipeg. There is a possibility that Messrs. Wood and Riley will be members of the new board.

DUBLIN PRISON GUARD ATTACKED

Mount Joy Fight Lasted Half an Hour

Several Insurgents Wounded; Civilians Fled

London, Sept. 13.—The national army guard at Mount Joy Prison in Dublin was attacked last night by insurgents and a half-hour's conflict ensued according to reports reaching Belfast from Dublin printed by The Evening Star this afternoon. Several insurgents were wounded. Civilians, the advice add, were caught between two fires and a wild stampede for safety ensued. None of the civilians were injured.

\$1,000,000 FIRE IN INDIANA

Hominy Plant in Terra Haute Destroyed

Terra Haute, Ind., Sept. 13.—Damage estimated at nearly \$1,000,000 in the hominy plant at Terra Haute, Ind., was caused by fire which early to-day practically destroyed the plant of the American Hominy Company here, said to be one of the largest of its kind in the world.

WELL-KNOWN B.C. CITIZEN DIED; LATE W. FARRELL

Local Government Board Urged; Would Collect Taxes in Ten Installments

Drafted Programme Includes Higher Pay for Aldermen and New Assessment

Drastic proposals, vitally affecting every department of the city's government, have been drawn up by the Civic Legislative Committee, and, if endorsed at a special meeting of the City Council called for next Monday night, will go before the convention of the Union of B. C. Municipalities next month and later before the Provincial Legislature.

The legislation proposed in the programme which will be considered by the Council Monday, it was learned to-day, includes:

(1) Increase of the annual salary of aldermen from \$400 to \$500.

(2) Collection of annual taxes in ten monthly installments, no collections being made in December and January.

(3) Establishment of a Provincial Local Government Board or Department of Municipalities to supervise financial operations.

(4) Complete revision of the present method of assessing property here by the inauguration of a system under which "key" lots would be selected in various parts of the city and the assessment of surrounding property based on the assessment of these chosen lots.

(5) Elimination of the City voters' list and the use of one list for Provincial, City Council and School Board elections.

(6) Power on the part of the City Council to dedicate land for park or other public purposes for all time.

(7) Alteration of the regulations governing the distribution of unemployment relief by making it necessary for a person to live in the city for a year before becoming legally domiciled here.

(8) Changes in the date on which the annual assessment roll is compiled.

Before Council Monday.
The Council will be asked to endorse or reject these proposals outright at next Monday's meeting, which will consider no other business.

Mayor Macdonald is anxious to have the matter settled one way or the other immediately so he has called Monday's meeting in the form of a special session. The plans outlined, it is expected, will form the basis of the recommendations which the Victoria delegates will lay before the Union of B. C. Municipalities next month. If they are endorsed by the Council, the legislation as amended to the Chamber of Commerce.

SPEEDY TRIAL FOR SIR M. ALLAN

True Bill Against Former Bank President

Judgment in the Macarow Case To-morrow

Montreal, Sept. 13.—The grand jury of the Court of King's Bench yesterday returned a true bill against Sir Montagu Allan, former president of the Merchants' Bank, who is charged with negligently signing a false return on the bank's financial condition to the Government for October, 1921.

Sir Montagu chose a speedy trial and will be brought before a Judge and jury in the Court of Special Sessions, as was D. C. Macarow, general manager of the bank, the judgment in whose case will be delivered by Chief Justice Dugas to-morrow. Mr. Macarow was charged with signing a false return to the Government.

FREE STATE MAY BE LEAGUE MEMBER

Irishmen May Sit With Other Nations' Delegates

Geneva, Sept. 13.—The Irish Free State's chances for admission into the League of Nations now appear to be good. Her application is not on the agenda of the Assembly, but the steering committee can put it there if it sees fit. Michael Macwhitt, the Irish Free State's delegate to the League, was turned to Dublin last night to report on the situation here and learn conditions in Ireland.

NEW LEGISLATIVE PLANS WOULD MEAN BIG CITY SHAKE-UP

Drafted Programme Includes Higher Pay for Aldermen and New Assessment

Local Government Board Urged; Would Collect Taxes in Ten Installments

Drastic proposals, vitally affecting every department of the city's government, have been drawn up by the Civic Legislative Committee, and, if endorsed at a special meeting of the City Council called for next Monday night, will go before the convention of the Union of B. C. Municipalities next month and later before the Provincial Legislature.

EFFECTIVE TARIFF CHANGE SLIGHT

Many Canadian Products Already Barred from U.S.

Statement by Deputy Minister of Agriculture

Ottawa, Sept. 13.—"The effect of the new United States tariff," said Dr. J. H. Grisdale, Deputy Minister of Agriculture, "will not become apparent for some time. It will not have a much greater effect than the emergency tariff measure of last year. The emergency schedule made the exportation of many of Canadian products to the United States practically prohibitive. This can hardly do more. For that reason Canadian producers and exporters are more or less already accustomed to these conditions."

As far as Canada was concerned the tariff would have a beneficial effect on the local sale of milk and its products. It would deter the shipment of large quantities to the United States and would have the effect of lowering the price here. Milk and its products were never sent to the United States because of a great demand there, but simply because of higher prices offered.

Beef.
In the case of beef, which was sent to the United States in large quantities, the effect of the tariff would be practically to prohibit further shipment. That would apply also to potatoes.

As for wheat, Canada never dealt much in that commodity with the United States. The European countries were the customers for that, and while the tariff might divert a little from the United States, it would have no appreciable effect since the entire shipment was never great.

Corn and Hay.
Canada imported rather than exported corn, and the tariff would not hurt Canada in the matter of hay exports. It might have an injurious effect later. Last year, however, there was a tremendous shortage of hay. Canada imported hay last year. But the end of the year found a small surplus on hand. With the hay crop good but not too heavy this year, Canada would need all the hay produced here.

CLEMENCEAU URGES UNION TO AVOID CONFLICT

Paris, Sept. 13.—M. Clemenceau believes that a closer union of the United States and the Allies and absolute co-operation between France and Great Britain are necessary to avoid a general conflict, with inevitable widespread ruin. He has sent a message to The London Times to this effect in reply to an inquiry prompted by the former Premier's forthcoming visit to the United States.

CONSIDER CHINESE SCHOOL QUESTION

Board to Hear Chinese Protests To-night; Embargo Becoming Effective

The City School Board will be faced to-day with the Chinese education question when it meets in regular session to-night. The board will have before it the written protests of the local Chinese colony against the segregation of Chinese public school children and the creation of separate schools for Chinese. Whether the trustees will stand by their segregation policy was not known definitely to-day.

Trustees stated, however, that they adhered to their determination to educate white and Oriental children in separate schools. They believe that the segregation policy has the endorsement of the public.

At the same time the board faces a serious problem created by the refusal of Chinese children to attend the Chinese public schools. Whether the trustees will stand by their segregation policy was not known definitely to-day.

Trustees stated, however, that they adhered to their determination to educate white and Oriental children in separate schools. They believe that the segregation policy has the endorsement of the public.

TWO BALKAN STATES READY TO AID GREECE IF CONFLICT SPREADS

Attitude of Jugo-Slav and Roumanian Governments Reported to Have Been Made Clear; Anti-Christian Movement by Turks in Thrace.

London, Sept. 13.—The Central News, in a dispatch from Athens, says it has been reliably informed that the Jugo-Slav and Roumanian Governments have evidenced without equivocation their intention of aiding Greece in the event of a Balkan conflict. Serbian troops, it was added, were being mobilized and moved in the direction of Uskub.

Athens, Sept. 13.—Disquieting rumors are afloat on all sides, causing uneasiness which the calmness displayed in official circles is unable to calm. It is reported that the Turks in Thrace, encouraged by the successes of Mustafa Kemal Pasha's army in Anatolia, are engineering an anti-Christian movement.

Encounters have taken place between Bulgarian comitadits (irregular bands) and Greek detachments along the border near Nevrokop, and it is stated that the comitadits were driven back into Bulgarian territory.

Constantinople, Sept. 12.—The occupation of Bursa by the Turkish Nationalists, which occurred last evening, marks the end of the Greek resistance in Asia Minor. Before evacuating the city the Greeks set it ablaze in several places, but the fire was controlled and only a single quarter of the town was destroyed.

At Mudanya, the port of Bursa, which the Turks have occupied, French troops were landed to protect the French establishments.

Greeks on Peninsula.
Constantinople, Sept. 13.—Several thousand disarmed Greeks still remain on the peninsula west of Smyrna and the Gulf of Scaia Nuova, according to the Greek military mission here. There is what is described as an adequate armed force protecting the seven-mile wide isthmus separating the peninsula from the mainland. The Greeks say they expect to remove these troops to home ports.

The Turkish Nationalists have really taken few prisoners, the Greeks here claim, but they admit that many of the disarmed Greeks are here, which they probably are wandering in the region between Smyrna and Aivali, some sixty miles to the north of Smyrna, and between Smyrna and Scaia Nuova, to the south.

British Battalion.
Malta, Sept. 13.—The British military transport Somali, bound for India, has been diverted to Malta to take a British battalion to Constantinople.

Venezolas in Paris.
Paris, Sept. 13.—Former Premier Venezolas of Greece arrived in Paris to-day from Switzerland. His friends declared he planned his visit here for conferences with political and personal friends regarding the situation in Athens, with a view, it was felt, to the possibility of his being called back to power in Greece.

BOARD APPROVES REDUCED WAGES

For Michigan Central Railroad Shophmen in Ontario

Men's Representative Does Not Agree With Majority

Ottawa, Sept. 13.—Reductions in wages, effective from August 15, of nine cents an hour for freight car men and seven cents an hour for machinists, blacksmiths, electricians, passenger car men and sheet metal workers and their helpers employed in Canada on the Michigan Central Railroad are considered to be fair and reasonable by two members of the board of arbitration appointed under the Industrial Disputes Act, which has reported to Hon. James Murdock, Minister of Labor.

The men's representative on the board, W. D. Robbins, of Toronto, in a minority report, says: "I do not agree with the findings of the majority of the board, for I think this last cut of five, seven and nine cents an hour is not justified, and the company is well able to pay these men."

The men's representative adds that he is firmly of the opinion that such a board as the United States Railroad Labor board, controlling the operations of both men and company, would not commit its Government.

By a standing vote the association sent a message to King George, as a token of the members' loyalty and of the affection in which he is held in Canada. A similar message was sent to the Prince of Wales.

(Concluded on page 4.)

ROYAL LANCER WON ST. LEGER

Silurian Second in English Race; Ceylones Third

Doncaster, Eng., Sept. 13.—Lord Londsdale's Royal Lancer, by Spear, won the St. Leger Stakes, run here to-day. Lord Derby's Silurian was second and Sir A. Bailey's Ceylones was third. The stakes totalled £4,000. The race was over a course of 1 mile 4 furlongs 132 yards. Twenty-four horses ran.

The betting was 25 to 1, 100 to 8 and 25 to 1 respectively against the winners of the first three places.

TO INVESTIGATE "RED" ACTIVITIES

Ottawa Turns Attention to Ukrainian Schools

Conditions Described by Toronto Ukrainian Minister

Toronto, Sept. 13.—The Government of Canada is going to investigate the "red" menace which overshadows the Ukrainian colonies in Canada, according to Rev. Paul Crath, minister of the First Ukrainian Presbyterian Church in Toronto.

Mr. Crath, in an interview some weeks ago, told of "the sinister work of the Bolsheviks in getting control of the Ukrainian language schools in Canada, including Toronto and other cities in Ontario. He believed the situation so alarming that only the most drastic remedy would succeed in avoiding the risk of a 'red' menace in Canada."

Following the interview the matter was discussed by officials of the Department of the Interior at Ottawa and the opinion of missionaries and clergymen working among the Ukrainians has been sought, with the result that the Government intends to sweep the control of the Ukrainian language schools, which are especially numerous on the prairies, from the hands of the Bolshevik committees and teachers, according to Mr. Crath's statement.

Supervision.
The Government was alarmed at the description of the actual conditions as given by missionaries and ministers, and the matter has been thoroughly investigated. It is quite possible that the strictest supervision over Ukrainian language schools will be instituted by the Government over the length and breadth of Canada, stated Mr. Crath.

Meeting in Toronto.
"The Reds in Toronto have called a mass meeting for next Sunday, when they will discuss the question," added Mr. Crath. "I am not opposed to Ukrainian language schools, but I am opposed to the present methods of teaching, which are atheistic so far as religion is concerned and Bolshevik in the matter of political propaganda."

BORNEO'S CHIEF COMES FOR HOLIDAY

Governor Pearson Is Aboard Empress of Australia

The career of the Hon. Aylmer Cavendish Pearson, C. M. G., of Sandakan, Governor of British North Borneo, who with Mrs. Pearson arrived in Victoria this morning aboard the Empress of Australia, well illustrates the possibilities of the British Colonial public service.

Still a young man, but forty-six years, Governor Pearson has held this office since 1910, when he took over the post from Edward Gueritz, who had so much to do with placing the Colony under the British flag.

White Man's Burden.
The sub-tropical civil services of Britain are wide in their demands on versatility, as is illustrated by the fact that when but twenty-five years of age, Governor Pearson was resident in a lonely station, with many natives to be kept in order with a little more aid than a walking stick and a score of naked constables armed with old Snyder rifles.

Before the war the prospective Governor was sessions judge, the chief source of justice to his territory, with the difficulty that the only means of reaching his decisions, whether of property or dealing with raiding murderers and pirates, was the moral effect carried by the word of a white man demands it to be done.

Governor Pearson and Mrs. Pearson are travelling to England for a vacation after and widely known by his writings on medical matters, was a passenger by the Empress of Australia here this morning from the Orient.

Sir Thomas, who is accompanied by Lady Parkinson, is a New Zealander by birth, and until he took up medical studies at Edinburgh, had spent his life on sheep and cattle stations of the Southern Dominion. As a surgeon and physician he has attained to one of the most aristocratic practices in England.

Sir Thomas is one of the most widely travelled men of to-day, his many journeys taking him through China, and the whole of the East. He is familiar with Japan, and has a high respect for the great progress and initiative in research shown by Japanese surgeons and students of experimental medicine.

MYSTERY DISEASE TAKES BIG YUKONER

William Irish, pioneer of the Klondike, who arrived here a couple of days ago on his way to his old home at Aymer, Ont., where he has been sent by doctors, was rushed in an ambulance to the Jubilee Hospital from the home of Norman Watt, 774 Island Road, to-day, suffering from what his friends describe as a mysterious disease.

Irish in the days of the rush was known as one of the most powerful men who ever went into the Yukon. He was six feet two inches in his socks and weighed 260 pounds. Some time ago a strange disease got him. Doctors were unable to diagnose it and tried all sorts of treatment in their efforts to solve the mystery. While they admitted that they were baffled, Irish slowly wasted away until he arrived here this week not much more than a skeleton. Giving up hopes of solving the mystery, they told him he had better go home. This morning he took a sudden turn for the worse. Doctors are now examining him in hospital here.

He went to the Yukon in '97 over the famous Teslin Trail and in '98 went into Dawson by Teslin Lake and Hootalinqua River.

PROFESSORS TO FIGHT A DUEL

Jewish Question Causes Hard Feeling in Hungary

Budapest, Sept. 13.—The moot question of how many Jews shall be allowed to matriculate in Hungarian universities has brought about a challenge for a duel between two prominent Hungarian educators. A controversy has been raging between the University of Budapest and the University of Szeged, the point at issue being whether the latter restricting the number applies to the Jewish refugees from the lost provinces.

Following the exchange of a number of uncompromising letters to the Rector of Budapest University, Dr. Barony, Professor of Surgery, has challenged the rector of Szeged, Dr. Meny, Professor of Civil Jurisprudence, to a duel with swords.

The WEATHER

Daily Bulletin Published by the Victoria Meteorological Department

Victoria, Sept. 13.—5 a.m.—The barometer is again rising on the Coast and fine, warmer weather may become general after the Pacific Storm. Showers have occurred in Alberta and frosts in Manitoba.

Reports.

Victoria—Barometer, 29.97; temperature, maximum yesterday, 68; minimum, 52; wind, 4 miles N. westerly, clear.

Vancouver—Barometer, 29.98; temperature, maximum yesterday, 66; minimum, 48; wind, calm; weather, clear.

Regina—Barometer, 29.94; temperature, maximum yesterday, 60; minimum, 34; wind, calm; weather, clear.

Edmonton—Barometer, 29.94; temperature, maximum yesterday, 60; minimum, 34; wind, calm; weather, clear.

Calgary—Barometer, 29.94; temperature, maximum yesterday, 60; minimum, 34; wind, calm; weather, clear.

Winnipeg—Barometer, 29.94; temperature, maximum yesterday, 60; minimum, 34; wind, calm; weather, clear.

Montreal—Barometer, 29.94; temperature, maximum yesterday, 60; minimum, 34; wind, calm; weather, clear.

Portland, Sept. 13.—A recommendation that the Right Rev. W. M. Brown, retired Bishop of Arkansas, be brought to trial on a charge of heresy, and if convicted be deposed from the ministry, was made to the House of Bishops of the Protestant Episcopal Church in convention here to-day.

The report on Bishop Brown was made by a committee headed by Bishop J. R. Vinchesteer of Arkansas, which reported that such action should be taken "in view of the antagonistic attitude towards Christianity" which Bishop Brown has recently shown.

Bishop Brown retired from his jurisdiction as the result of criticism of a book he published lately discussing Christianity and Communism.

There passed away at the Royal Jubilee Hospital on Monday evening, James MacKay, aged 37 years, a native of Newfoundland, and a resident of this city for the past thirty-five years. His residence was 414 Jones Street. He leaves to mourn his loss his widow and son, his mother, Mrs. William MacKay, of 771 Hillside Avenue, eight brothers and three sisters. The remains are resting at the Thomson Funeral Home, 1625-1626 Quadra Street, whence the funeral will take place on Thursday afternoon at 2.30 o'clock, when the Rev. F. A. P. Chadwick, M. A., will officiate. The late Mr. MacKay was a member of No. 1, L. O. O. F. and the K. of P. Far West Lodge, No. 17, he was also a member of Tel-el-Mahuta Temple, No. 155, D. O. K. K. The remains will be laid to rest in Ross Bay Cemetery.

OBITUARY RECORD

The death occurred this morning at the Royal Jubilee Hospital, after a lingering illness of James Walsh, aged 53 years, a resident of this city for many years. The remains are resting at the Thomson Funeral Home, 1625-1626 Quadra Street, whence the funeral arrangements will be announced at a later date.

NO RAILWAY CAN LONG WITHSTAND LOSS OF FORESTS

Careless Canadians Are De-
stroying Timber, Says Chief
Commissioner

Ottawa, Sept. 13.—"Every forest
fire that broke out within fifty miles
of the Canadian National lines, this
Summer stole away some of the im-
mediate or potential traffic and de-
layed to that degree the financial
viability of the public-owned system,"
states C. Price Green, Chief
Commissioner of Industries and Re-
sources of the Canadian National
Railways.

"A large mileage of the Canadian
National runs through natural timber
growing lands which can never pro-
duce any other marketable crop than
timber. At the same time, these
wooded regions are generators of
tourist traffic and account for the
rapidly expanding number of visitors
from the United States traveling on
our lines, as well as for the great
volume of recreational travel on the
part of Canadians. The security of
the forests, therefore, is absolutely
vital to the solvency of any railway
system in this Dominion.

"The destruction of forests by fire
this year was not the work of the
railways, as Government reports will
prove, but of fishermen, campers,
settlers and woods-travelers gener-
ally. It is the careless citizen, himself
a shareholder in the Canadian Na-
tional, who can wreck or maintain
these forest resources so essential to
our national prosperity and the suc-
cessful operation of the public-owned
railway system.

COAL SHIPMENTS TO MONTREAL

Fuel From Pennsylvania; Car-
goes to Reach City
Monday

Montreal, Sept. 13.—Montreal will
be among the first cities to receive
considerable shipments of anthracite
coal from the Pennsylvania mines,
and the first cargoes will reach here
on Monday. This information was
contained in private advices received
here to-day.

Montreal takes twenty-five per
cent of the Pennsylvania coal which
is imported into Canada.

SASKATCHEWAN SELLS DEBENTURES

Regina, Sept. 13.—At a net cost of
2.13 per cent, to the province, the Do-
minion Securities Corporation of To-
ronto, representing a syndicate com-
prising themselves and Dillon, Read
& Company of New York, purchased
\$2,628,000 Saskatchewan twenty-year
five per cent debentures yesterday,
their price being \$7.652. There were
2,628,000 debentures. Bidders were
asked to quote on four
different bases for fifteen and twenty-
year debentures bearing interest at
five and five and one-half per cent.

PREDICT GREAT CANADIAN GROWTH

Officers of Canada Coloniza-
tion Association Optimistic

Willison and Others Will Visit
Victoria

Saskatoon, Sept. 13.—Abounding
optimism was the keynote of ad-
dresses delivered at a meeting in the
Saskatoon Club last night by Sir
John Willison and M. A. Brown,
president and vice-president, respec-
tively of the Canada Colonization
Association.

"I believe," said Sir John, "that in
the next twenty-five years we shall
see not only the greatest expansion
in the history of Canada, but the
greatest in the history of the whole
American Continent. There are men
still living to-day who recall the
wonderful period of growth of the
United States, and during that period,
it is to be borne in mind, the United
States had to depend on her own
natural birth rate and the flow of
immigrants from Europe. She had
no great nation of 120,000,000 souls at
her borders to draw upon as we have
to-day. For Canada the situation
was never so favorable as it is at
present. Not only has the United
States closed her doors to European
immigration, thus diverting the flow
to this country, but the first fam-
ily in history Great Britain has realized
the necessity of settling the Over-
seas Dominions with her own people.
Holland has reversed her ancient
policy and is now willing to assist
emigrants, and Switzerland and
Scandinavia will assist in providing
with a steady flow of settlers.
And there is the great country to the
South with its millions of people to
be drawn upon for our vacant lands."

Confident of Success.
"We know our plan will succeed,"
Mr. Brown declared. "It has been
approved by every colonization ex-
pert, every Government, every
agency to which it has been sub-
mitted. It has the financial backing
necessary to carry on for the first
ten years and after that it will be
self-supporting. It is behind it the
British, Canadian and Provincial
Governments and the hearty co-
operation of the railways and business
interests of the country. All we ask
from you is your moral support and
assistance in welcoming and caring
for the settlers when they arrive at
their new homes."

Coming to Coast.
The chief officers of the Canada
Colonization Association left here to-
day on the Canadian National for the
West. The party includes the pres-
ident, Sir John Willison; the vice-
president, M. A. Brown; the general
manager, Howard Everett; and Sir
Gadagier-McDonald, C. M. G.,
D. S. O., and P. D. L. Smith, both
directors.

The party is touring the western
provinces with the double purpose of
interviewing the Provincial Govern-
ments and addressing public meet-
ings in support of the new land set-
tlement movement.
The party will go to Vancouver
and Victoria and then travel back to
Edmonton, Calgary and Moose Jaw
and Winnipeg, visiting intervening
points.

MILK POISONED ON DOORSTEPS

Criminals Busy in Toronto
Suburb; Victims Are
Recovering

Toronto, Sept. 13.—Twelve cases of
poisoning are reported from New To-
ronto homes where milk was deliv-
ered Monday by a dairy of New To-
ronto.

No blame for the poisoning is at-
tached to the dairy, for it is thought
the poisoning was due to something
which was placed in the milk after
it had been left at the houses. No
report has been received yet regard-
ing the analysis of the milk.
All the victims are considered out
of danger.

A RULING ON LIFE INSURANCE

Benefit May Be Transferred
to Person Not Originally
Named

Montreal, Sept. 13.—The right of
an insured person to transfer the
benefit of a life insurance policy to
some person other than the origi-
nally designated, provided that stipu-
lation has been made on the face of
the policy reserving that right, was
sustained in a judgment handed down
at Three Rivers by Judge Duplessis.
The Metropolitan Life Insurance Com-
pany was defendant in the action,
which was for \$2,000. The company
had paid that sum to a Mrs. M. Char-
bonneau, who had been named ben-
eficiary of her husband, after the orig-
inal benefit was assigned to J. E.
Munier, a son-in-law. After the
company had paid the policy Munier
claimed a like amount in addition.

BOY DROWNED; PLAYMATE ASKED REWARD FOR CLOTHES

Montreal, Sept. 13.—When George
Lawton, aged ten, was transferred to
the Lachine Canal on Saturday, his
nine-year-old playmate brought the
clothing to the dead boy's mother,
asking for a reward of some pennies
with which to buy candy. He pre-
tended he had found the clothes and
only after he had been threatened by
the mother, whose suspicions he
aroused, did he tell of the fatality.
Two hours had elapsed then.

FOCH PHOTOGRAPH STOLEN

Toronto, Sept. 13.—An autograph
of Marshal Foch, one of the most
prized possessions of the Aero Club
of Canada, has disappeared. It is
thought some souvenir hunter took
it.

YOUNG WOMEN WHO SUFFER

Letter Points Way Towards
Relief—Lydia E. Pinkham's
Vegetable Compound

Toronto, Ontario.—"I suffered
from the time I was a schoolgirl;
until I had taken your medi-
cine, with pain
in my left side
and with cramps,
growing worse
each year un-
til I was all
run down. I
was so bad at
times that I was
unable for work.
I tried several
doctors and pa-
tent medicines and
was only relieved
for a short time. Some of the op-
erators wanted to have an operation
but my father objected. Finally I
learned through my mother of
Lydia E. Pinkham's Vegetable Com-
pound and how thankful I am that
I tried it. I am relieved from pain
and cramps and feel as if it has
saved my life. You may use my
letter to help other women as I am
glad to recommend the medicine."

Mrs. H. A. Goodman, 14 Rockvale
Ave., Toronto, Ontario.
Lydia E. Pinkham's Private Test-
Book upon "All Women's Peculiar-
ities" will be sent to you free
upon request. Write to The Lydia
E. Pinkham Medicine Co., Lynn,
Mass. This book contains valuable
information.

Assistance Given by the Harri-
man Interests

STRIKERS BORROW MONEY FROM BANKS

Coal Strike Transactions in
U. S. Reported

Atlantic City, N. J., Sept. 13.—The
manner in which Harriman banking
interests of New York City and the
Indiana National Bank, of Indian-
apolis, helped finance the miners in
the recent coal strike was revealed
here by William Green, secretary-
treasurer of the United Mine Work-
ers of America.

Mr. Green, who also is a vice-pres-
ident of the American Federation of
Labor, is here attending the annual
session of the American Federa-
tion of Labor executive council
after negotiating with New York
banks yesterday the sale of bonds,
which, he said, will bring the total
cost of the strike to the United Mine
Workers of America well above
\$1,000,000, exclusive of large sums ex-
pended by local unions.

The loan from the Harriman Na-
tional Bank, amounting to \$100,000,
was obtained last July in the midst
of the coal strike, said Mr. Green.

The loan was made on the basis of
\$1,500,000 tied up in the courts in the
Coronado and Pennsylvania Mining
Company suits," he said, and was
sorely in need of cash with which
to defray strike expenses.

Gave Note.
"Through Benjamin Schlesinger,
president of the International Gar-
ment Workers' Union of America,
three officials of the Mine Workers,
John L. Lewis, president; Phillip
Murray, vice-president, and I met
W. A. Harriman, president of the
Harriman National Bank, and H. B.
Rosen, of the New York Life Insur-
ance Company, chairman of the
Bank's board of directors," Mr. Green
related.

"We asked for \$100,000 and
got it, giving in return an unse-
cured personal note for six months,
signed by us. Mr. Harriman asked
if \$100,000 would be enough, saying
we could have \$500,000 if we needed
it. It was all a big surprise to us."
In similar manner another \$100,000
was borrowed from the Indiana Na-
tional Bank of Indianapolis, accord-
ing to Mr. Green, and \$500,000 from
the Brotherhood of Locomotive Fire-
men and Enginemen.

TO WAKE UP A LAZY LIVER

For "liverishness," constipation, bil-
iousness, headaches, drowsiness,
bad complexion, etc., try drinking
before breakfast a little Aikla
Salt-rates dissolved in hot
water. Feel fit as a prize
fighter all day.

When you sleep the heart immedi-
ately slows down and then the slug-
gishly moving blood deposits greasy
and acidulous poisons—toxins—
throughout the system. Next morn-
ing the blood flows more rapidly
again, but cannot flush out all the
impurities accumulated overnight.
That means a clogged liver and con-
stipation, "the beginning of all dis-
ease." So poisons are sucked into
the blood through thousands of ab-
sorbent intestinal glands.

You should thoroughly cleanse the
whole system by washing out all the
poisons in the morning. Then your
body acts better, same as a fire
burns better with soot cleared from
chimney. Ask your chemist for a
few ounces of refined Aikla Salt-
rates, and take before breakfast and
once after the noon or evening meal,
a teaspoonful of this dissolved in a
half tumbler of hot water. The be-
fore-breakfast dose promptly washes
out all mucous and acidulous poisons
from the entire intestinal tract, leav-
ing the way clear to receive and
properly digest food. The salt-rates
water also reaches the liver by ab-
sorption, thus stimulating that organ
and removing any congestion or
sluggishness. This remarkable Aikla
Salt-rates compound is practically
tasteless, also harmless as sugar, in
any quantity, and it never gripes.
Children love it, especially with a lit-
tle sugar added. It is the greatest
solvent and eliminant known to
science, and its amazing curative
properties will make you a crank on
the subject of internal cleanliness.

Stunning Cloth Dresses

For Street Wear Very
Moderately Priced

It's the unexpected
brilliant touches of
color that make these
cloth street dresses in-
dividual looking.

Sometimes it peeps
forth from an open-
work motif, the inside
of a cuff or the facing
of a drape or a panel.
Expert tailors fash-
ioned them of point
twill, piquette, gabar-
dine, etc., with special
attention to details.

Priced from **\$27.50**

Holeproof Silk

Hose, \$2.00 Pair

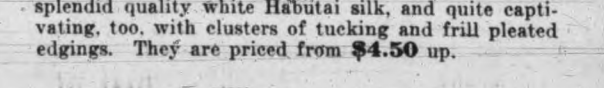

Holeproof Silk Hose with
deep ribbed elastic tops,
in black, white and
all the wanted colors.
A splendid wearing silk
hose at, per pair, **\$2.00**

Trimly Tailored Blouses of Habutai Silk for the Business Woman

For the business woman who wants her blouses fresh
and tailored there are smartly efficient styles here of
splendid quality white Habutai silk, and quite capti-
vating, too, with clusters of tucking and frill pleated
edgings. They are priced from **\$4.50** up.

"Circlet" Brassieres of Dainty Stripe Pink Madras at \$2.00

The "Circlet" was espe-
cially planned to supply
the demand for a gar-
ment which would ad-
just quickly, launder
easily, and equalize the
bust and shoulder flesh.
It slips over the head
and fastens at the waist.
Sizes 34 to 42. Priced
at **\$2.00**

MANITOBA FARMERS RESUME THRESHING

Clear Weather Follows Rain;
Delay in Saskatchewan

Winnipeg, Sept. 13.—Clear, cool
weather in Manitoba is drying out
the unthreshed grain after last week's
rain and if fine weather continues
threshing will be in full swing every-
where in a day or two.

CORN

Lift Off with Fingers

Regina, Sept. 13.—Frequent local
showers have impeded threshing
operations in the Regina district, a
situation reported fairly general over
the Province.
Uncut grain suffered only slight
damage from frosts Saturday night,
according to reports reaching the
Provincial Department of Agricul-
ture. Wheat in stock has not been
damaged to any appreciable extent
by rain.

CAR ON TRACK IN CALIFORNIA WAS DYNAMITED

San Bernardino, Cal., Sept. 13.—
An explosion heard for ten miles
shook a portion of San Bernardino at
9 o'clock last night when dynamite,
estimated by Deputy United States
marshals to have been thirty sticks,
exploded beneath a Santa Fe stock
car standing on the stockyard
spur between San Bernardino and
Colton.

ONE MAN OF DUBLIN RAIDING PARTY KILLED

Dublin, Sept. 13.—A daring ambush
of national troops in Curran Street
yesterday resulted in the capture of
two members of the ambush-
ing party after a spirited chase. One of
them, Sean McEvoy, tried to escape
but was fatally shot. Another re-
sulted in a severe injury.

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, in- stantly that corn stops hurting, then shortly you lift it right off with your fingers. Truly!

Your druggist sells a tiny bottle of
"Freezone" on an aching corn. In-
to remove every hard corn, soft corn,
or corn between the toes, and the
calluses, without soreness or irrita-
tion. (Adv.)

TO HOLDERS OF FIVE YEAR 5 1/2 per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders
of these bonds who desire to continue their
investment in Dominion of Canada securities the
privilege of exchanging the maturing bonds for new
bonds bearing 5 1/2 per cent interest, payable half yearly,
of either of the following classes:—

- Five year bonds, dated 1st November,
1922, to mature 1st November, 1927.
- Ten year bonds, dated 1st November,
1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st
December, 1922, the new bonds will commence to earn
interest from 1st November, 1922, GIVING A BONUS
OF A FULL MONTH'S INTEREST TO THOSE
AVAILING THEMSELVES OF THE CONVERSION
PRIVILEGE.

This offer is made to holders of the maturing bonds
and is not open to other investors. The bonds to be
issued under this proposal will be substantially of the
same character as those which are maturing, except
that the exemption from taxation does not apply to the
new issue.

W. S. FIELDING,
Minister of Finance.

SEGREGATION.

Maintenance of all round efficiency and the preservation of harmony in the schools which come within its jurisdiction were the principal factors which convinced the Board of School Trustees that the interest of the majority would be served by segregating the Occidental from the Oriental pupil.

It was only to be expected that some opposition to this course would be encountered. The various points of view from which the matter may be considered very naturally intersect a number of delicate considerations. But it will have to be understood that if the contact of two totally different temperaments and characteristics jeopardizes harmony and threatens efficiency in the schools it is much better that such risks should be avoided in time.

There is much to be said in behalf of the arguments advanced by a number of Chinese correspondents whose letters have appeared in this newspaper. The Board is undoubtedly seized with the importance of its action and certainly recognizes the responsibility which it must accept in consequence. It similarly realizes—as our Chinese citizens must appreciate—that the fundamental difficulty arises as soon as discord makes its appearance. The youthful mind is not capable of weighing matters of this kind in the widest sense. It instinctively seizes upon the obvious.

Christian principle is not involved in any particular. The Board of School Trustees is charged with the administration of the school system of Victoria. Efficiency and discipline must be preserved. If these may be assured the Board's policy will justify itself. Discord and the possibilities of racial trouble might have resulted if the old system had been continued. That would have been bad all round.

MR. KIPLING'S DENIAL.

At intervals which are happily getting less frequent some public man in Great Britain or in the United States can be depended upon to say the wrong thing at the wrong time. These individuals have no special purpose to serve except to satisfy their own vanity. In a general sense their attempt to create a sensation usually fails and no particular harm ensues. At the same time, when all reasonable-minded men and women are doing their level best to improve the good feelings which already exist between the two great English-speaking nations, it is a pity that they cannot follow the advice which Sir Auckland Geddes gave in London a few weeks ago. He said that until people knew what they were talking about they should "keep their mouths shut."

The latest sensation is an interview attributed to Mr. Rudyard Kipling that has now been effectively repudiated by the distinguished poet and author. In the narrative published by The New York World he was quoted as saying that "the United States entered the war two years too late," and "came into it because of the gold." Very naturally the boldness of such a statement supposedly coming from a public man possessing such a vast audience as Mr. Kipling promptly aroused official ire on this side. But to-day's contradiction will relieve any tension that the injurious procedure of an over-ambitious correspondent might have created.

The incident will serve to suggest that all stupid talk which cannot have any effect upon past history should cease. The fact worth remembering is that an association of nations fought side by side in order that the greatest menace to the peace of the world might be removed. Jointly that association succeeded. There is not

the slightest need to discuss each individual contribution in a relative sense. In other words it was a joint affair—and a success. Let it go at that.

BEST MAN WANTED.

Judged by the nature of the inquiries that are being directed to the Department of Railways at Ottawa it would appear that there is an uneasiness abroad lest the new chairman of the Canadian National Railways should not be a Canadian. In view of all the circumstances, and more especially by reason of the obviously limited choice that this country affords, it seems to us that it would be surprising if he were a Canadian.

It would be gratifying to know that such a highly important and responsible post could be given to one of our own people. But it looks as if those who would be qualified to tackle the job are either otherwise engaged or are not considered available because of a former official relationship with a private concern. This particular circumstance almost wipes out the Canadian selection.

On the other hand the Government must get the best man possible. If a chairman can be found on the other side of the border who is capable of putting the people's property on a fair way towards a paying basis he will be worth a large salary and the Canadian people will ignore the shock to their pride that his appointment may occasion.

LEGISLATIVE FARE.

Although the time of the next session of the Legislature will be taken up to a very large extent with questions that are considered to be of immediate importance there are numerous subjects that could be discussed and decisions reached in connection with them in half the time that is frequently taken up with unimportant details.

Foremost among the legislative fare will be the Pacific Great Eastern Railway and its future. Next in interest and importance will be the second annual overhaul of the Liquor Control Act. Re-hashing the history of the Government line will not assist the House to discover a solution for the very real problem with which the Province is faced. It is similarly the duty of the Legislature as a whole to treat the Liquor Control Act and such amendments as may be found necessary in a non-partisan spirit.

When the House has disposed of these obviously controversial topics we shall hope that it will find time to discuss such matters as town-planning and the care of the tuberculous population of the Province. The former may not appear to be an urgent matter. Arguments will be advanced that there is plenty of room in the settled portions of the Province to encourage intelligent utilization of building sites. Even lack of statutory provision in these matters may not be attended by serious consequences. But the fact remains that town-planning legislation is a concomitant of modern progress and should find a place on the statute books. Victoria's "Dardanelles" should not be imitated anywhere in British Columbia. Such might be the case if there is no law to prevent it. The Provincial Board of Health should be able to get an appropriation for the establishment of free tubercular clinics at one or two convenient points in the Province. Vancouver established one with funds raised by public subscription and the enterprise has thoroughly justified itself. Surely the Legislature will be willing to forego some of its political entertainment in order to accomplish something for humanity. Town-planning and tuberculosis have an indirect relationship.

DR. KING WILL ACT.

Year in and year out the question of protecting Nicomen Island has proved a bone of contention between the Provincial and Dominion Governments. This Province has been willing to recognize a certain obligation towards the farmers in that section; but it has found it a difficult matter to convince the authorities at Ottawa that there is also a national responsibility. On this account it will be particularly gratifying for all parties concerned to learn that Hon. J. H. King—understand-

ing the provincial point of view and the attitude of the Oliver Administration—proposes to call a meeting of Federal and provincial engineers in order that the whole question may be discussed and a co-operative plan outlined. With that much promised it can be taken for granted that the Minister of Public Works was not indulging in platitudes when he made the announcement at Mission on Monday.

NOTE AND COMMENT

Yesterday's vote of confidence in the Irish Free State Government provides more evidence that the successors to the Griffith-Collins policy intend to save Ireland from the consequences of the misapplied energy and diabolism of the rebel elements.

Mr. Bowser has sold his interests in his law firm to one of the partners in order that he might give the whole of his time to politics. He ought to have realized by now that when he was working a full shift at the Parliament Buildings he was not particularly successful. How can he expect to do any better by working all day as an Opposition Leader? Not even a flying start will be his this time.

Some of the dispatches reaching this country to-day would seem to indicate that Turkish troops will commence to invade Europe on a grand scale as soon as they have made peace with the Greeks. The Allied contingents in the troublesome part of the world may not be particularly large; but the Angora Government will think twice before incurring the militant wrath of Britain and France.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications should be addressed to the Editor of the paper, not to the publisher, and should be accompanied by a return address. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to this Editor.

CHINESE SCHOOL PUPILS

To the Editor:—We, the undersigned Chinese Ministers respectfully urge the consideration of the following facts upon the School Board:

1. That we feel keenly this whole segregation policy of the Board, as it implies a very great disadvantage to the Chinese children.

2. In China the children of missionaries and other English-speaking children attend Chinese schools, and mingle with the Chinese children, in order to learn the language. Indeed, there is no other way in which one can learn to speak a new language correctly and fluently so readily in the same way as the Chinese feel that through the policy of the Board their children will suffer great loss and hardship. If this privilege is denied them, we also feel that if our children do not mingle with other children they will miss the opportunity of learning many important customs of modern civilization.

3. We also wish to state plainly, that we feel the policy of the Board to be unfair and unjust to the Chinese for in common with all other nationalities we pay our full share of taxes, and yet we are the only class against whom discrimination is made.

4. We do not hear of any effort being made to segregate other non-English speaking children. Canada is a Christian country and should manifest the Christian spirit in the way of dealing.

5. While we believe there are some Chinese boys and girls in school who are not able to compete with white children of similar age, yet we know that there are many others who are quite able to do so—some even leading their classes. We feel, therefore, that segregating these children is an insult to us and we fear will lead to open estrangement and loss of friendship resulting in serious consequences.

As those ministering in sacred things among the Chinese we know right well the state of feeling that has been stirred up in their minds already, and as we are anxious for many reasons to see a state of friendship exist between the Chinese and the Canadian people we are assured that this will be impossible, if the present policy of the Board is carried out. We therefore, respectfully urge reconsideration of the whole matter.

GEO. BUS SERVICE.

To the Editor:—If there are any who have neglected to sign the petition in favor of protecting the Gorge bus service, but who wish to do so, may I urge them to see to it without delay as it cannot be kept open much longer. It has been very gratifying to find the general support it has received from permanent residents and property owners, but we must not forget that the jitney owners, of course, have a counter petition, which will no doubt receive many signatures, and if the bus service is to continue it will need all the support that can be obtained. Though no one wishes to cause unnecessary hardship or unemployment, yet it becomes a question whether the comfort, convenience and safety of probably some 1,500 residents is of greater consideration than three or four jitney drivers earning a precarious two or three dollars a day and perhaps ruining a strictly local Gorge industry. A copy of the petition may still be found at Messrs. T. N. Hibben's store, and I would further commend to those interested in the economic

side of the question to read this week's Buzzer, which very ably and interestingly discusses the question.

W. RINGWAY WILSON.

Sept. 13, 1922.

NEW LEGISLATIVE PLANS WOULD MEAN BIG CITY SHAKE-UP

(Continued from page 1.)

The Municipal Act, affecting every municipality in the Province, any proposals which the Union may reject will be laid before the Legislature in the form of a private bill affecting Victoria only. The Mayor intimated to-day that he would fight for Victoria's suggestions on the floor of the municipal convention if necessary.

The suggestion which undoubtedly will cause the biggest storm at the Union convention is that advanced by the Mayor himself—that a Local Government Board of a Provincial Department of Municipalities be created to check up the financial operations of municipalities and prevent them from indulging in wild expenditures such as those which, it is admitted, are responsible for Victoria's financial difficulties. Creation of a Local Government Board has been opposed by Municipal Union leaders for years on the ground that the municipalities can take care of their own affairs. The Mayor said to-day that he would fight to the last ditch for this plan.

Revision of the present assessment system is another important feature of the legislative programme which will be before the Council Monday. Under the scheme proposed, as stated, "key" lots would be chosen in every distinct district of the city to form the basis of surrounding assessments. These lots would be chosen in the business section, another in Victoria West, a third in James Bay, a fourth in the Fairfield district and so on as was deemed necessary. The assessment of each key lot would be fixed at a certain amount. A lot nearby which was thought to be less valuable than key lot would be assessed at a low figure.

In this way all the land in the district would be assessed on the original assessment of the key lot. The assessment of the key lot would be so fixed that the total assessment would reach approximately a figure determined previously. It is proposed that this figure be about \$40,000,000, or \$1,000 for every resident of the city.

Collection of city taxes in ten monthly instalments, it is expected, will be endorsed with little opposition. This is a modification of Dr. Adam Shortt's proposal that taxes be collected every month of the year. The purpose of cutting the collections down to ten is to eliminate collections in December and January, which are thought to be the most difficult for the average family.

Mayor Marchant is the sponsor of the proposal that Federal, Provincial and city elections be carried out with a single vote plan. This plan would eliminate the expense of compiling separate lists and, I believe, is a sound one," the Mayor said to-day. It is argued that the Federal list includes names not on the city list. If that is so, it is a good thing for the Council to know it, so that it can endeavor to collect taxes from these people who are not paying anything into the city treasury.

At present the City Council has no power to dedicate lands for public purposes for all time. It can only set aside lands for these purposes by resolution, and a new Council can alter this decision. Under the plan proposed in the new legislative programme a decision by any Council to dedicate a piece of land for public purposes could not be altered unless the electors agreed to such a move by plebiscite.

Increases in the legal period of office of the Mayor and Council members is proposed in an effort to prevent unemployed men swarming into the city in the winter and demanding relief. At present men become domiciled in the city after a month's residence here. It is proposed that this be increased to twelve months.

CANADIAN CLUB CONVENTION HERE

(Continued from page 1.)

Purification of moving picture film's formation of young men's and young women's Canadian Clubs and endorsement of the Canada Colonization Association's project of immigration were recommended at the session yesterday afternoon.

Mr. Nicholas, the new president of the Association of Canadian Clubs, is well-known in Victoria in connection with the activities of many local organizations. Last year he served as president of the Canadian Club with notable success, and this year is a member of the club's executive. He also was vice-president of the Chamber of Commerce and a director of the Kiwanis Club last year. Mr. Nicholas is the managing editor of this newspaper and is one of the best known newspapermen in Western Canada. He has served as a director of the Canadian Press, Ltd.

Mrs. Hyndman's election to office in the association follows closely upon her election to the presidency of the Victoria club. Before becoming president of the club she was vice-president for some time.

Mr. Sehl's connection with the Canadian Club here stretches over many years. He has long served as secretary of the club.

SIOKE TRAINS BEFORE OCTOBER 1

(Continued from page 1.)

Means of transportation has alone kept back this portion of the Island heretofore and just as soon as these gas cars are in operation the progress of this whole locality will be quickly noticeable. The Island main roads to Metchoin and Sooke will be greatly relieved of much heavy traffic of freight which annually does so much damage to the surfaces of these roads and much public money thus saved for road improvements of a more permanent character.

NOVA SCOTIA COAL MINERS TO RESUME WORK

North Sydney, N.S., Sept. 13.—The strike of Bras d'Or Coal Company miners, who failed to turn up for work yesterday morning, was ended last night by United Mine Workers' District Board member, J. Carey, ordering the men back to work. The mine probably will be closed until to-morrow.

The men demanded the right to allot places to the men working at the coal face.

EFFECT OF TARIFF CHANGE SLIGHT

(Continued from page 1.)

The tariff had practically cut off the livestock trade between Canada and the United States except in thoroughbred registered animals, which were permitted into the United States duty free, he said.

Washington, Sept. 13.—Opponents of dye embargo lost to-day in the House in the first phase of their fight to have that provision stricken out of the tariff bill.

Speaker Gillett overruled a point of order by Representative Fish, Republican, New York, that the conference exceeded their authority in writing the embargo back into the bill after both House and Senate had voted it out. An appeal was taken from that, but on a vote of 150 to 147 the appeal was laid on the table.

DAVID SPENCER, LIMITED

H. G. WELLS FAMOUS OUTLINE OF HISTORY The Romance of Mother Earth

TO-DAY'S INSTALMENT—3

Rocks That Are History-Books

Biologists, that is to say, students of life have made guesses about how life began upon the earth, but we will not discuss them here. Let us only note that they all agree that life began where the tides of those swift days spread and receded over the steaming beaches of mud and sand.

The atmosphere was much denser then, usually great cloud masses obscured the sun, frequent storms darkened the heavens. The land of those days, upheaved by violent volcanic forces, was a barren land, without vegetation, without soil. The almost incessant rainstorm swept down upon it, and rivers and torrents carried great loads of sediment out to sea, to become mud that hardened later into slates and shales, and sands that became sandstones.

The geologists have studied the whole accumulation of these sediments as it remains to-day, from those of the earliest ages to the most recent. Of course the oldest deposits are the most distorted and changed and worn, and in them there is now no certain trace to be found of life at all.

HOW THE EARTH GOT ITS RIBS

Probably the earliest forms of life were small and soft, leaving no evidence of their existence behind them. It was only when some of these living things developed skeletons and shells of lime and such-like hard material that they left fossil vestiges after they died, and so put themselves on record for examination.

The literature of geology is very largely an account of the fossils that are found in the rocks, and of the order in which layers after layers of rocks lie one over another.

The very oldest rock must have been formed before there was any sea at all, when the heat was too hot for a sea to exist and when the water that is now sea was an atmosphere of steam mixed with the air.

Its higher levels were dense with clouds, from which a hot rain fell toward the rock below, to be converted again into steam before it reached their incandescence. Below this steam atmosphere the molten world-stuff solidified as the first rocks.

WHEN ALL SEAS WERE STEAM

These first rocks must have solidified as a cake over glowing liquid material beneath, much as cooling lava does. They must have appeared first as crusts and clinkers. They must have been constantly remelted and recrystallized before any thickness of them became permanently solid.

The name of fundamental geology is given to a great underlying system

of crystalline rocks which probably formed early by age as this hot youth of the world drew to its close. The scenery of the world in the days when fundamental geology was formed must have been more like the interior of a furnace than anything else to be found upon earth at the present time.

After long ages the steam in the atmosphere began also to condense and fall right down to earth, pouring at last over these warm primordial rocks in rivulets of hot water and gathering in depressions as pools and lakes of the first seas.

Into these seas the streams that poured over the rocks brought with them dust and particles to form sediment, and this sediment accumulated in layers, or as geologists call them, strata, and formed the first sedimentary rocks.

Those earliest sedimentary rocks rank into depressions and were covered by others; they were bent, tilted up, and torn by great volcanic disturbances and by tidal strains that swept through the rocky crust of the earth.

We find these first sedimentary rocks still coming to the surface of the land here and there, either not covered by a later strata or exposed after vast ages of concealment by the wearing off of the rock that covered them later—there are great surfaces of them in Canada especially; they are cleft and bent, partially remelted, recrystallized, hardened and compressed, but recognizable for what they are. And they contain no single trace of life at all. They are frequently called azoic (lifeless) rocks.

But since in some of these earliest sedimentary rocks a substance called graphite (black lead) occurs, and also red and black oxide of iron, and since it is asserted that these substances need the activity of living things for their production, which may or may not be the case, some geologists prefer to call these earliest sedimentary rocks archaeozoic (primordial life).

LIFE'S FIRST FAINT TRACE

They suppose that the first life was soft-living matter that had no shells or skeletons or any such structure that could remain as a recognizable fossil after its death, and that its chemical influence caused the deposition of graphite and iron oxide. This is pure guessing, of course, and there is at least an equal probability that in the time of formation of the azoic rocks, life had not yet begun.

Overlying, or overlapping these azoic or archaeozoic rocks come others, manifestly also very ancient

and worn, which do contain traces of life. These first remains are of the simplest description: they are the vestiges of simple plants called algae, or marks like the tracks made by worms in the sea mud. There are also the skeletons of the microscopic creatures called radiolaria.

This second series of rocks is called the preterozoic (beginning of the series), and marks a long age in the world's history.

SULPHUR CLEARS A PIMPLY SKIN

Apply Sulphur as Told When Your Skin Breaks Out.

Any breaking out of the skin on face, neck, arms or body is swiftest, quickest by applying Mentho-Sulphur. The pimples seem to dry right up and go away, declared a noted skin specialist.

Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask your druggist for a small jar of Mentho-Sulphur and use it like cold cream.

A DESPERATE SORROWER

Prisoner Visitor—"What brought you here?"

Prisoner—"Borrowing money."

Visitor—"But, good gracious, they don't put men in prison for borrowing money."

Prisoner—"Not as a rule; but I had to knock a man down three or four times before he would lend it to me."

PASSING THE "BUCK."

Government by Injunction

by
A. A. FREEMAN

It is well understood, of course, that for a great many years the labor union have been complaining of what they call "government by injunction." They do not seem to understand that the mildest and most benevolent form of government is that which they call "government by injunction." Lawyers un-derstand this, but as many of my readers are not lawyers, and have probably fallen into the error of supposing that "government by injunction" means "government by oppression" rather than government by protection for their benefit, I will explain exactly what "government by injunction," so called, means and what its purpose is, and what it really accomplishes. I can do this best by illustration:

Two men living as neighbors are separated by a dividing line. Near this line grows a magnificent tree. It is near the house of one of these parties. It is not only ornamental but is useful as a shade. The other party claims that the tree belongs to him and is not on his neighbor's side of the line. He expresses his determination to cut it down; chop it up and carry it away. Now what is the other party to do? Very true, he may sit at the root of the tree with a loaded gun and repel his neighbor, which he probably has a right to do. But is it not more humane and more orderly for him to go into court, sue out a preliminary writ of injunction, and let the matter be decided by a judge, before an intelligent court, settle their right to this tree? This is "Government by Injunction."

But innumerable cases are continually arising which illustrate the necessity for the exercise of the injunctive powers of the court.

It is a well understood principle, however, that courts of equity will not intervene where there is a plain and adequate remedy at law. It must be noted, however, that the remedy must be "plain" and "adequate."

The foregoing remarks are preliminary to what I desire to say with reference to the strike of all railroad employees in the United States. It goes without saying that if this strike should result in the actual stoppage of all railroad transportation in the country, both of passenger and freight traffic, it would realize the greatest disaster the country has ever seen. The reader's imagination is as good as mine and I leave him to contemplate what would result if railroad transportation were completely tied up.

My purpose, however, is to speak

more definitely concerning conditions that exist now in the United States which have been brought about by the strike and the intervention of the government. I think I might as well say in limbo that I shall have nothing to say against labor unions so long as they confine themselves to their own affairs. They are at perfect liberty to fix their rate of wages, and on failing to receive them, they are at liberty to strike, that is to say they are at liberty to quit their jobs; and I believe that this is a sentiment of the non-union people who constitute ninety-eight per cent of the population. The only demand made by non-unionists is that they be allowed the same privileges enjoyed by the unionists. They desire to make their contracts with employers and to fulfill them, and they are entitled to the compensation for which they have contracted.

There is something so reasonable in this contention that to undertake to establish it by argument would tend rather to weaken it. The unions say that these non-union people are "scabs," that they, the unions, have a monopoly of jobs, and that therefore when these "scabs" are employed their jobs are being stolen from them and that therefore they have a right to intervene by force, if necessary, to protect themselves from the incursions of these "scabs"; hence it was that only a few weeks ago at Herrick, Illinois, a large number of unionists, having struck, and their places being supplied by other workmen, several thousand of these unionists combined and drove these "scabs" off to the woods and murdered them!

I have, in imitation of the unionists, called these independent workers "scabs"; for I need not advise the intelligent reader that the best and most intelligent workers do not belong to the union. But all the "scabs" do.

I do not mean to intimate that there are no good, honest, industrious men belonging to the unions. For there are thousands of them. What I do mean to say is that the unions have no monopoly of the best workers of the country.

The mistake which I think the unions make consists in the conception, on their part, that they belong to some sort of separate organization, and have certain rights which do pertain to the mass of the people in common. They assume to be a kind of regiment in rebus, so to speak, a government, in a large measure, independent of the government of the land.

It was a sentiment of this character that, pervading the Chicago railroad strikers, made it necessary for the government to intervene. The reader must know that the transportation of the mail and the conduct of interstate commerce are matters which by the constitution are to be provided for by the Congress of the United States. The Congress has done this by means of legislation, and it is therefore the duty of the executive department to see that these public facilities are enjoyed by the people.

The railroad strikers at Chicago said that they would not be employed by the people, that they, the employees, would not run the railroads and that they would not permit the "scabs" to do so. Hence, the whole service must be stopped, commerce must cease, and the people starved unless their demands for increased wages were complied with. It amounts to nothing to say that these railroad strikers are the best paid workmen in the United States.

But let us come back a moment to the real issue. The Attorney-General by direction of the President applied for and obtained a temporary injunction whereupon the strikers are loudly complaining and are denouncing the Attorney-General for applying for the injunction and the judge for granting it. I notice in The Seattle Post-Intelligencer for the sixth instant that one Mr. William Short, president of the State Federation of Labor in the State of Washington, in a speech made on Labor Day at Bellingham, denounced the Attorney-General for applying for the injunction and the judge for granting it, declaring that the whole procedure was unconstitutional, null and void, and that it was not only the privilege of the people to disregard it and treat it with contempt but actually their duty to do so. He said that the Attorney-General ought to be impeached for applying for the injunction and the judge should be impeached for granting it.

It seems very much as if Mr. Short was endeavoring to get himself into jail on a charge of contempt of court, but he will fail. The government is not going to confer on Mr. Short the honor of taking any notice of his railing. What I am a little surprised at is that when he said the Attorney-General and Judge ought to be impeached, he did not include the President also. It may be that the President of the Washington State Federation of Labor is a great lawyer, although I never heard him mentioned in that respect. I am somewhat familiar with the writings of Blackstone and Kent and Marshall and Story and Cooley, but I had never

\$75.00

New Autumn Dress Hats Are Priced as Low as \$15.00

In the models we offer you at this price, style, beauty of line and quality have not been sacrificed for price. They are pleasing models that will strongly appeal to women seeking quality at small cost.

The color tones of Fall are indeed beautiful, there being rich golden browns, chestnut browns, plain black, black and silver and grey.

Dignity and distinction are apparent in every line as you will readily realize when trying them on. To-morrow is a most opportune time.

Exceptional Value; Fur-Trimmed

Suits \$39.50 Each

BETTER THAN YOU CAN USUALLY OBTAIN AT THIS PRICE

Fashioned from wool velour in navy and brown; full lined with good quality silk, excellently tailored and trimmed with beaverine, beaver, seal, squirrel and astrakhan fur. Some are silk embroidered, but all are worthy of a special visit to this store—\$39.50 each.

Strikingly Beautiful Are the New Silk Fabrics

Crepe and Pile Finish Fabrics Predominate

Perhaps the newest fabric this season is Veleite, a dress fabric of beautiful quality and soft pile-like finish. Shown in silver, grey, jade, white, light navy, chestnut brown, dark navy and black. Yard wide, \$3.95 a yard.

Fashion has predicted Chiffon Velvet for wraps, dresses and millinery; and in black too; 36 inches wide, \$4.25 a yard; 40 inches wide, \$4.95 and \$6.50 a yard.

Arcadia Satin, a very new fabric of a good heavy quality, but not too heavy for dresses, wraps, etc. It is a wool-back fabric with a crepe finish and can be had in taupe, granite, henna, peacock, grey and fire-fly; 42 inches wide, \$4.50 a yard.

Duvetyn, a pile fabric which resembles suede, is very adaptable for wraps, capes and millinery; can be had in silver, coral, taupe, henna, navy, black, jay blue and African brown; full yard wide, \$5.95 a yard.

Crepe Moroccan, a silk and wool fabric with a crepe finish. Very desirable for dresses, wraps, etc., especially when trimmed with fur; shown in grey, henna, nigger and mastic; 40 inches wide, \$4.95 a yard.

Crepe Back Charmeuse, the crepe back giving to the face a beautifully soft crepe appearance. Suitable for day and evening dresses and wraps; shown in brown, navy, grey, pink, black, white; 40 inches wide, \$4.95 a yard.

Roshanara Crepe, a light weight crepe finish silk fabric, 42 inches wide; shown in navy, black and dark green; \$5.95 a yard.

English Wool Velours

GOOD VALUE AT \$3.95 A YARD
Soft and drapery with an unusually attractive finish. A most highly desirable fabric for suits, skirts and coats. Shown in shades of brown, fawn, sage, peacock, grey, green and three shades of navy; 36 inches wide, \$3.95 a yard.

Your best friend lives right here

CANADA is a rich market for the national advertiser when the daily newspaper is a vital part of his merchandizing organization. It is a business graveyard for those who look far afield for miraculous help.

When your special salesmen, window dressers and sampling crews are building up sales in our trading area this month what possible effect has "national" circulation a thousand miles away on their effort, except to add the burden of wasted dollars to the product they sell.

With consistent intelligence you use this circulation to carry to-day's selected message to-day. If to-night's conference reveals to-morrow's big

problem, to-morrow's newspaper will meet the task. This kind of advertising is not easy. It is not "publicity." It is controlled and directed merchandizing force.

"The flexibility of newspaper advertising and the choice it presents of the amount, class and location of circulation enable the advertiser quickly to direct his campaign wherever and whenever it is most needed," says The Canadian Shredded Wheat Co., Ltd.

Your good product, intelligently merchandized with the help of the daily Newspaper will widen its market faster than production can keep pace with the increase.

Willis Pianos, Ltd.
1003 Government St. Phone 514

be impeached for granting it. It may be, however, that Mr. Short is correct and that all of those other distinguished jurists whose names I have quoted do say nothing of dozens of others that I might quote are mistaken.

I desire to say, however, for my sake that while I have not the least doubt of the right of the Attorney-General to apply for the injunction or the duty of the court to grant it I do doubt the propriety of the procedure.

Within the last quarter of a century there have occurred three situations very like that which now exists. The first of these occurred at Chicago during Mr. Cleveland's administration. The railroad strikers made exactly the same threats that they are making now. The matter being called to the attention of the President, he wired the military commander at Chicago to see to it that the trains ran as usual. Then Mr. Cleveland went to sleep and the trains continued to run just as before.

In my opinion Mr. Cleveland's method of settling a railroad strike is the very best that could be adopted.

"THE RADIOS"

The popular troupe of ex-service entertainers have been secured by the management of the "Royal" to produce a lightning version of real British variety show as an added attraction. Patrons of this home of high class productions are promised a breezy, talented and refined show by "The Radios" who are noted for their speedy, rapid fire, way of shooting their numbers from

the footlights. This is natural for they, one and all, have been well trained in rapid fire, during their service in France until the time came along when through contact with friends, Fritz they became casualties. After this they being shownmen, used their talents and funnisms to help keep the other fellows merry, over there, after seeing their efforts in this direction, one can quite believe they did their work well. Those who have had the pleasure of seeing them know they are worth seeing, because they are always fresh.

ANOTHER SCHOOL IN Sooke District

(Times Correspondence)
Sooke Harbor—An added asset to the Sooke Harbor district is the superior school which has just been opened. Through this additional local school the graded school, with its two teachers, is now relieved of the whole of the entrance class, and this class, instead of having to go into the city, is enabled to take the first two years of the high school course in Sooke. This should mean very much to the district, for many people kept from living in the country by the necessity they have felt for being in the city with their children just coming into their teens. Miss Porter, a daughter of the late Mayor Porter, of Victoria, has been engaged as teacher of the Sooke Superior School.

Returns to Deep Sea.—When the Admiral liner President Grant leaves for the Orient, on Saturday Myron Holzer will be aboard as purser, having returned to deep sea sailing after a spell of coastwise in the office of the Sooke Superior School.

QUEBEC LEGISLATURE.

Quebec, Sept. 12.—The Cabinet decided today to convene the next session of the Legislature of Quebec October 24.

LACONIA WILL BE FIRST CUNARD SHIP ON PACIFIC

Will Visit Coast in December
With World Tour Party

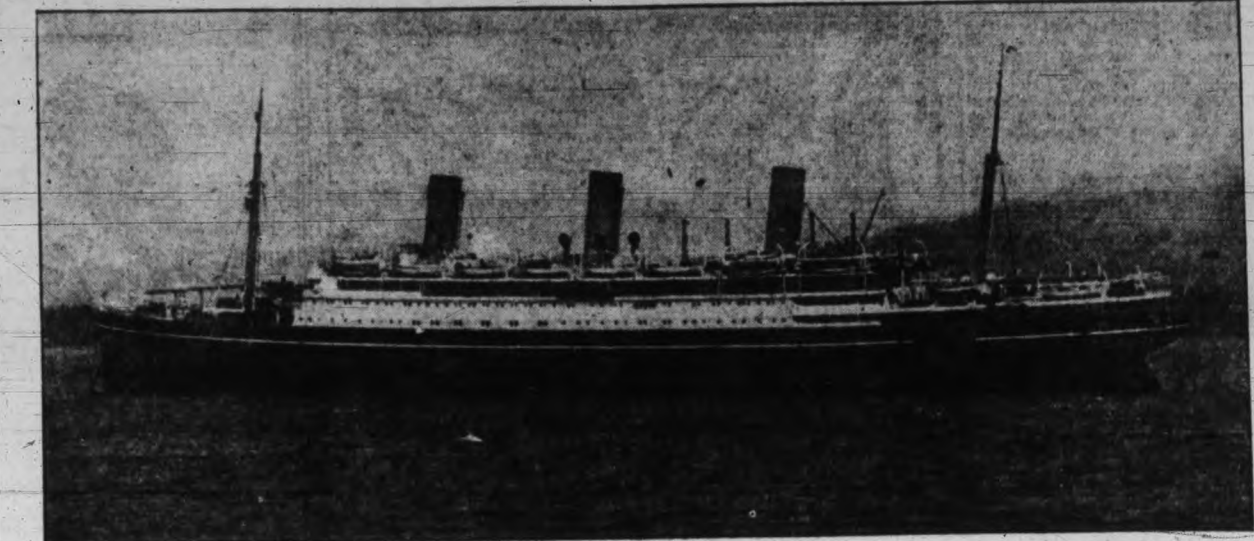

Chartered by the American Express Co. for a round-the-world tour, the Cunard liner Laconia will leave New York for this coast on November 21, having the honor of being the first of the large Cunard passenger vessels to enter the Pacific Ocean.

A big reception is being prepared at San Francisco, where she will arrive on December 8, much interest centering upon the new vessel, which is one of the new 21,000-ton oil-burners added to the fleet as a unit of the post-war building programme of the Cunard Company.

Mediterranean Tour.—Sailing from New York on October 28, the new Anchor liner Tuscanian will make a cruise to the Mediterranean Sea. The Tuscanian is an oil-burner of the latest type, a fine sea-boat and splendidly furnished.

News from the Ocean Lanes

TERMINATES INITIAL VOYAGE TO THE FAR EAST

C. P. S. S. EMPRESS OF AUSTRALIA.

RAILWAYS NOTE DECREASE IN JUNE

General Decrease in Operating
Profits and Loss Given
in Reports

The C.P.R.'s June gross earnings were \$12,510,448, a decrease of \$621,195 from June, 1921, says Canadian Railway and Marine World. Operating expenses were \$11,448,134, an increase of \$91,249 over June, 1921. Net earnings were \$2,362,313, a decrease of \$742,445 from June, 1921. It is evident that in June, as in preceding months, the C.P.R. results were much less favorable than they were in corresponding months last year. The cumulative effect of these less favorable monthly showings is evident on examining the operating figures for the first six months of this year, the gross earnings totaling \$74,255,355, a decrease of \$4,760,312 from the first six months of 1921. Operating expenses totaled \$66,481,287, a decrease of \$4,624,218. Operating expenses decreasing \$3,136,094 less than gross earnings, net earnings for the six months of course also decreased by that amount.

The Canadian National Ry. gross earnings for June were \$8,235,603, a decrease of \$51,367 from June, 1921. Operating expenses were \$7,099,582, a decrease of \$825,635 from June, 1921. The operating loss was \$1,363,979, a decrease of \$631,258 from June, 1921. While this represents a substantial improvement over June, 1921, the June, 1922, results were not nearly as good as those in May, when the operating loss was but \$47,053.

Teacher: "Who was Joan of Arc?"
Mollie: "Noah's wife."

PALATIAL EMPRESS OF AUSTRALIA IS HIGHLY PRAISED

Luxury Ship Brings Company
of Distinguished Pass-
engers

The Empress of Australia on her first eastward run to this coast across the broad lanes of the Pacific has won golden encomiums and is generally spoken of by the saloon and other passengers as the "passenger ship de luxe" in the trans-Pacific run. It is significant that a passage that was ideal, with no misadventure, sailings in Yokohama to make the voyage with the new Empress liner.

The passenger accommodation of the Empress of Australia came in for the highest praise on all sides, as the vessel docked today, it being generally stated by world travelers that they made the most comfortable voyage across the Pacific within their memory. Added to the luxurious ship and the first class cuisine was a passage that was ideal, with no misadventure, sailings in Yokohama to make the voyage with the new Empress liner.

Among the important diplomatic personages aboard the Australia is Count John F. C. de Sallis, K. C. M. G., C. V. O. of the British Foreign Office, who for several years has held the ambassadorship to the Vatican. A linguist of rare ability, Count de Sallis is an authority on Arabic and Eastern Affairs.

Major Porteus, Indian army officers now retired were expected to arrive on the Empress but were not on board. Major Yates Brown, another Indian army officer who was similarly interested in the Canadian colonization project arrived on the liner, however, in the furtherance of the plans of the B. C. settlement scheme.

Mr. and Mrs. W. T. Payne of Yokohama made the crossing, the former having been until recently general manager of the Canadian Pacific steamships in the Orient. Mr. Payne is on a mission part holiday, part business, the latter in connection with the Oriental interests of his line. The party are at the moment en route to Montreal, from which point their plans have not yet been definitely decided. Mr. Payne is succeeded as C. P. S. S. manager in the Orient by Allan Cameron, who left on the Empress of Russia.

Colonel A. Bruce Powley of Vancouver is returning to his home after a tour of the Orient. The Colonel, well known here from his connection with the former 143rd Battalion, B. C. Infantry, was on a business mission to the Far East in connection with international trade expansion of a well-known Toronto firm.

CHINESE EX-PREMIER ON WAY TO EUROPE

With Present Finance Minister
Will Clear Finance Tangle

With no titles to indicate their rank among mankind, Chow Tse Chi until recently Acting Premier and Minister of Finance, and Tung Kang his successor in the Finance Ministry of the Republic of China, arrived this morning in Victoria as passengers on the Empress of Australia, wonder ship of the Canadian Pacific fleet. Accompanied by a staff of secretaries and members of their families they are visiting Europe, chiefly with a view to arranging for the resumption of payments on international loans which have defaulted during the past few years of Chinese internal trouble.

Chow Tse Chi was in office during the period Pekin was dominated by Chang Tso Lin, war chieftain of Manchuria, and the fact that he is traveling to Europe as the expert adviser of his successor in the Finance Ministry shows the lack of party lines in Chinese affairs.

PRESIDENT TAFT ON ORIENTAL RUN

Pacific Mailer Leaves San
Francisco With 270
Passengers

San Francisco, Sept. 12.—The latest addition to the Pacific Mail Steamship Company's trans-Pacific fleet, the President Taft, sailed for the Orient, with 270 passengers and a capacity of 300, on Sunday morning. The liner President Taft, which was forced back to New York Sunday afternoon by engine trouble, resumed her voyage to San Francisco today, the company was advised. She will join the Orient fleet of the Pacific Mail on her arrival here.

Captain Ryland Brennan, of the steamer President Lincoln, wireless-ed yesterday that he would make port at 2 o'clock this afternoon, ten hours earlier than was expected. Captain Brennan made a fast get-away from Honolulu and stayed within the board's speed limit for 555 of 11 knots an hour.

TO WIDEN ENTRANCE TO SEATTLE'S HARBOR

Federal Government Author-
ized Lake Washington
Improvement

Seattle, Wash., Sept. 12.—Widening of the channel at the entrance to the Lake Washington Ship Canal locks and the construction of a guide pier at that place will begin with the arrival here of Government specifications in the near future, it was announced today following advice yesterday from Washington, D. C., that the Senate bill authorizing an expenditure of \$446,000 on the canal had been passed.

In authorizing the work to be done, the amount had been left by the House in the Senate. Mr. Baker, assistant Government engineer, said. The House bill included the Lake Washington ship canal item but not the \$446,000, he said. That part had been settled on by the Senate.

MOTORSHIPS ARE COMING TO FORE

Large Increase Predicted in
Coastwise, Inter-coastal
and Foreign

Seattle, Sept. 12.—It is predicted here that inside a year there will be a large increase in the number of motor-driven vessels operating coastwise, intercoastal and foreign. The success of the motorship Kennebec, built by the Todd plant Tacoma for the Alaska Steamship Company and operating under an agreement between that company and the Williams Line is on her sixth voyage to the Atlantic Coast and her seventh voyage since completion. Everywhere the economy of the Kennebec in fuel has attracted attention of shipping men and the same is reported of the new motorships Californian and Misourian, of the American-Hawaiian Steamship Company's fleet.

Resumption of heavy cargo movements to the Orient is quite noticeable here, and all vessels operating trans-Pacific are reported booked full for several months. The Walker-Ross Company, representing the Tatum, Kaiser, Kaisha in the Northwest, has requested an additional vessel for October loading. The September ship has been booked full for months and the October ship, the Ayaha Maru, is now reported full with much freight offered to go before the November boat, the Hakushiki Maru, is set to leave.

John C. Fiver, San Francisco, publisher of the Shipping Register in that city, is here for a few days. He is planning a cruise to the Hawaiian Islands this Winter in his yacht.

Y. Ashino, formerly general chief clerk in the Nippon Yusen Kaisha office here, is now chief clerk in the export freight department at Osaka.

MORE DOMINION MONEY PAID OVER FOR VANCOUVER PORT

Ottawa, Sept. 12.—(Canadian Press).—The Government has advanced \$254,000 on the loan to the Vancouver Harbor Commission on account of expenditures on harbor improvements during July. The total advance authorized is \$5,000,000, of which \$3,295,000 has been advanced to date.

IS SUCCESSOR TO H. W. BRODIE ON B.C. COAST

W. H. SNELL

TO INCREASE SCOTTISH TRADE WITH CANADA

Major G. B. Johnson, Canadian Trade Commissioner at Glasgow, who arrived in Canada recently on the Montclair, has started on a tour of the Dominion in order to visit manufacturers and exporters interested in the Scottish and Irish markets. Arrangements for his visits are being arranged and the itinerary will be announced by the Department of Trade and Commerce, Ottawa. Firms wishing to get in touch with Major Johnson should communicate, without delay, with the Department of Trade and Commerce.

PROTESILAUS OUTBOUND.

The Blue Funnel liner Protesilaus will arrive at the Outer Docks tomorrow morning at 8 o'clock, and will stay for two hours to pick up a number of passengers for the Orient. She is carrying a capacity cargo, chiefly picked up at Seattle. The Ixion of this line left Yokohama for Victoria on September 8, and is expected to arrive on September 22.

BRITISH STEAMER AFIRE OFF COLON

Roman Prince Making for Port
With Blaze in Afterhold

San Francisco, Sept. 12.—The British steamer Roman Prince, bound from Hull to San Francisco, has a fire in the afterhold, according to advices today to the marine department of the Chamber of Commerce, which said the vessel would arrive to-night at Colon.

B. C. TIES TO INDIA

About two years ago a start was made in exporting ties from British Columbia to India, and over 300,000 ties have been sent across the Pacific for this purpose. The Indian Government returns shows the value of the ties imported into India from Canada in 1920-21 as \$1,000,000.

Day Steamer to Seattle THE S. S. Sol Duc

Leaves C. P. R. Wharf daily at 10:15 a. m. for Port Angeles, Dungeness, Port Townsend and Seattle, arriving Seattle 4:45 p. m. Returns, leaves Seattle daily at mid-night, arriving Victoria 9:15 a. m. A COMPLETE OCEAN Service "the WHITE STAR DOMINION Way"

A half-century of carrying ocean travellers has brought the White Star Line to the highest standard of service. This service is exemplified in the magnificent, carrying first, second and third class passengers in the new Regina, and the Canada and Cometa.

Other services to England and the Continent are provided by the White Star, Red Star and the American Line steamers sailing from New York every Saturday.

CANADA'S SEASIDE AND MOUNTAIN LINKS PLEASE GOLFERS

THE history of golf in Canada is a long story. The first game played on this continent took place in this country and the development of the game here has gone forward with rapid strides. Today the Dominion is dotted with links noted for their excellence from St. Andrews-by-the-Sea in New Brunswick, to Vancouver in British Columbia. Guests are welcome everywhere and United States experts like "Chick" Evans and Oswald Kirby are unanimous in declaring that the quality of Canadian golf is very high. Canada's first club was the Royal Montreal founded in 1873 about fifteen years before St. Andrews Golf Club, the first in the United States, was started in Yonkers, N.Y.

Canada's St. Andrews-by-the-Sea is a seaside course on Passamaquoddy Bay, an estuary of the Bay of Fundy so near Maine that a long drive could almost put one over the international fence. St. Andrews is not a name to be taken lightly, and when Sir William W. Horn and Lord Shaftesbury had the 6,100 yard New Brunswick links laid out, they made it worthy of its great Scotch namesake, the mother links of the golf world. Many of the holes are on sloping ground with the picturesque panorama of the bay in one direction, and the green forests in another. In addition to the regular 18-holes, there is a 9-holes course for ladies and the Algonquin is headquarters for golfers.

The Canadian government owns and manages at Banff, Alberta, one of the most interesting and picturesque links in the world. Banff Golf Course, this year expanded to 18 holes, is nearly a mile above sea-level along the banks of the Bow River. From the edge of the fairways majestic mountains tower a mile above the links and the golfer enjoys his favorite sport in a scenic setting of unforgettable beauty. Nature is augmented by wild mountain kites who peer down from some lofty ledge at the players. The links are in charge of a competent professional and are a fine test of the game.

Farther west Vancouver and Victoria enjoy golf both summer and winter on links which are a delight to both expert and novice.

Boy Scout Sports—The annual sports of the Boy Scouts' Association will take place on Saturday afternoon in the Oak Bay recreation grounds. The affair is in aid of the local funds of the association, which are badly in need of replenishing, and it is hoped that there will be a large attendance. Contributions of cake, fruit, etc., will be gladly welcomed.

NEWS IN BRIEF

New Tennis Courts.—The new tennis courts in connection with Metropolitan Church are about completed and will be among the best courts of their kind in the city.

Brigade Called.—The City fire brigade was given a run yesterday when a roof fire at 845 Pandora Avenue required its attention. The damage was small.

Guild to Meet.—A meeting of the St. Jude's Social Guild will be held to-morrow afternoon, at 2:30 o'clock. All members are requested to attend as important business will be discussed.

Cloverdale P.T. Association.—The Cloverdale Parent-Teacher Association will hold their first meeting on Friday evening at Cloverdale School, at 8 o'clock. All parents and others interested in school work are asked to attend. The election of officers for the coming year will take place at this meeting.

Court Mourning.—The following message has been received at Government House from His Excellency the Governor-General: "Our weeks' court mourning will be observed for the late Duchess of Albany, from September 2, of which seven days' half mourning on and after September 23."

Elk's Club to Dance.—The Elk's Swimming Club will hold a dance to-night at the George Hall, commencing at 8:30 o'clock, and continuing until midnight. Ozard's orchestra will provide the music for the occasion. A committee has been put in charge of the arrangements and everything indicates a big success.

Seek Horse Racing.—That pro-racing interests have not yet lost hope of horse racing at the Fall Fair arises from a letter received by Reeve S. J. Drake of the Oak Bay Council yesterday. The letter will bring the matter before the regular council meeting on Thursday evening next, but is personally opposed to any change in the present ban, he stated.

Judgment Reserved.—At the close of the hearing of Saanich Municipality vs. McFadden, concluded in the Supreme Court yesterday before Mr. Justice Murphy, judgment was reserved. H. B. Robertson, K. C. appeared for the municipality and F. C. Elliott for the defendant. The dispute was one over the ownership of a Saanich highway near Elk Lake.

Annual Rally.—The annual rally and sports of the Boy Scouts in the Victoria district will be held on Saturday next, at Oak Bay Athletic Grounds, when it is expected that some keen competition will be displayed by the contestants. Mr. Charles Gardner will conduct a tea and refreshment booth during the afternoon.

Services At St. Andrew's.—Rev. J. K. Unsworth gave the first of his series of lectures at St. Andrew's Presbyterian Church schoolroom Monday evening, and a great deal of interest is being taken in the evangelistic talks which will be given each evening this week. The musical services are under the direction of T. H. Nichol, of London, Ontario.

Will Speak On Travel.—An address on world travel will be given by William Darwin, a visiting Australian, formerly of the Australian Flying Corps, before a public meeting to be held at the Canadian Legion Rooms on Thursday evening. Mr. Darwin, with a companion, is on a tour around the world, working in each centre to obtain the means of carrying out the novel adventure.

For Passenger Agents.—The Chamber of Commerce committee named to look after the reception of the passenger agents who will arrive in Victoria on Tuesday next is as follows: W. A. Willis, of the One Hundred Per Cent Club; Tom Morison, of the Kiwanis; R. P. Brown, of the Real Estate Exchange; H. A. Beckwith, of the Gyros, and L. D. Maclean, of the Rotary Club.

Liberal Wards Meeting.—A meeting of Ward One Liberals will be held in the Liberal Club at 8 o'clock to-morrow night. Last night Wards Three and Four met in the clubrooms and selected the names of the delegates to be submitted to the general meeting of the association Friday evening when the representatives from Victoria for the Nelson convention will be definitely appointed.

To Visit Fair.—Premier Oliver has extended an invitation to the members of the Montreal Board of Trade, who will visit Victoria in a few days, to attend the Fall Fair at New Westminster as he thinks that by so doing they can gather a better impression of the natural production and the resources of the Province than in any other way. Among the visitors will be a number of prominent British parliamentarians.

Monthly Police Record.—The police record for the month of August prepared by Jailer Thomas Hall shows the work of the department during that period. Police court cases in August totalled 106, says the report; convictions numbered 35, committed for trial 2, discharged 10, unaccounted for 4 and safe-keeping cases 7. The patrol responded to 123 calls. Nineteen accidents were reported, in

The TIMES NEWS of SPORT

Sisler Forced Out Of Browns' Line-Up

Sprained Shoulder Muscle Will Keep Him Out of Game at Least a Week—His Loss Greatly Deplored in St. Louis and May Rob Club of Championship

St. Louis, Sept. 13.—George Sisler, star first baseman of the Browns, will be out of the game at least a week, according to Dr. R. W. Hyland, the club physician, who may place Sisler's right arm and shoulder in a cast to hasten healing of the injured arm. It was announced last night that he had sprained a muscle in the shoulder in reaching for a wild throw before Monday's game.

The injury, it was said, had been aggravated by Sisler being hit on the shoulder with a pitched ball in Monday's game.

Sisler's continued absence from the game, it is generally conceded by sport writers, would hamper the Browns' chances of winning the pennant. His heavy hitting, his in-fielding and the moral effect of his presence upon the remainder of the team, it is pointed out, would be greatly missed.

Stopped Him Equaling Record. Sisler's injury robbed him of a chance to tie the major league record for hitting in consecutive games established by Ty Cobb in 1911 when he hit safely in 40 games. Sisler had made at least one hit in 39 successive games when he was forced out of the line-up. His season's hitting record has passed the 420 mark, far from his nearest rival, Cobb.

During Sisler's absence from the game, Jacobson, centerfielder, will substitute on first base and the veteran Shorten will play the outfield.

Boston, Sept. 13.—If the St. Louis Americans and the Giants are the pennant winners, the first three games of the world's series probably will be played in one city and the four succeeding contests or as many as may be necessary in the other.

John A. Heydler, president of the National League said to-day he believed this system would be adopted in the event the Browns are league champions. He added that a tentative schedule would be formulated within a week.

President Heydler said he thought no member would care to make two long trips between the cities in such an important series.

New York, Sept. 13.—The New York Yankees, leaders in the American League, opened their western invasion at Chicago on Sunday.

The Browns without the services of George Sisler, who may be out of the game the rest of the season as a result of a sprained shoulder muscle, defeated Detroit 8-6 and moved to within a game of the Yankees who were idle.

Cleveland beat Chicago 8-2 and now are only seven points behind the White Sox.

No games were played in the National League.

St. Louis, Sept. 13.—Carpenters today began adding box seats back of the third-base line at Sportsman's Park for handling the crowds in the Yankees-Browns three-game series starting next Saturday and for possible use in the world's series.

Nearly ten thousand requests for reservations for the world's series have been received by Bob Quinn, business manager, since the announcement that those received after last Sunday would be given conditional consideration.

S' LONG, MART!

MARTIN STRAITH

who is packing his old kit bag and going on a route march to Chicago and Toronto. Mart is pulling out tonight, and when he next returns hopes to have a golf championship of some kind after his name. Mart is going East on a business venture, and will have the best wishes of his many friends here. Mart is well-known here not only because he can wait around the Colwood golf course in 30 or more, but also because of a very amiable personality. Mart is an overseas veteran. He went away in the army for a year, and came home with a commission, which he won on the field. Mart left here in 1915 and returned wounded two years later. On his return to France he was commissioned in the Oxford and Bucks Light Infantry. Later his unit was transferred to Mesopotamia, where Mart became chief transport officer. He shifted on to Persia, and after the armistice in 1918 was engaged in the Northwest Frontier Campaign, and was the only Canadian who watched the Afghan Amir's representative put his John Hancock to the treaty at Rawal Pindi in April, 1919. Since his return Mart has been engaged in two pastimes, one of working with brother George and the other of trying to break the course record at Colwood Golf Club.

BIG SCORES MADE BY LADY GOLFERS

Qualifying Round Produces No Star; Sixteen Players in Opening Round To-day

Toronto, Sept. 13.—The first of the sixteen pairs who survived yesterday's qualifying match, teed off this morning in the opening round for the ladies' open golf championship of Canada, under almost perfect weather conditions. There was bright sunshine and the air just cool enough for the highest standard of play.

Toronto, Sept. 13.—In spite of the almost ideal conditions yesterday for the qualifying round of the Canadian ladies' open golf championship at the Toronto Club, the scoring on the whole was larger than is customary for this event. With a pair of 79, there were only sixteen players who turned in scores of better than 100, and some ladies who were expected to qualify failed to pass the test.

Chief among these were Miss Molla McBride, who was defeated in the final last year by Miss Cecil Leitch, and Mrs. Foy, the Quebec champion. Eight players tied with 106 for four places in the qualifying round, and the tie was played off. Miss McBride was one of the eight, but was eliminated at the third hole by Mrs. Bridges, of Winnipeg, the other three places being decided at the first hole and three other ladies being eliminated at the second.

Miss Sidney Pepler, Toronto, and Miss Ada Macdonald, Ontario champion, led the field with scores of 84, with Mrs. W. Gavin, of the Huntercombe, England Club, one stroke behind. Miss Alexa Stirling, United States, who won the title in 1920, and Mrs. Douglas Laird, of Winnipeg, were tied for fourth place with 87.

Mrs. Laird, assisted by a handicapper of 11, won the annual handicapper match with a net score of 76. Miss Pepler and Miss Bowers, of Baltimore, were tied for second place with 77, and

Series for Lacrosse Championship Of Canada Is Postponed One Week

Winnipeg, Sept. 13.—The Montreal Shamrocks have asked for a week's postponement of the Mann Cup elimination series with the Winnipeg Tigers. This would also cause a delay of a week in the series at the coast. Definite decision regarding new dates will be made by the Canadian Amateur Lacrosse Association to-day.

The games in Winnipeg were billed for September 15 and 18. The meeting of the Canadian Amateur Lacrosse Association, scheduled for Winnipeg, Sept. 16 has been called off until the play down is agreed upon.

The winners of the Shamrocks-Tiger series will meet Con Jones' Vancouver.

Football to Stage Grand Opening on September 23; Board to Supervise Game

Radical changes in the supervision of football in Victoria this winter were introduced and adopted at the weekly meeting of the Victoria and District Football Association held last evening at the Veterans of France clubrooms.

The special committee appointed to draft new by-laws to replace the constitution which has been in effect for several years advised that a board of five be appointed to take charge of the whole soccer field. The board would pass upon the teams to be admitted to the various divisions, draft the schedule and attend to the many other details in connection with the game.

All Impartial Men. After the matter had been thoroughly aired the report was adopted. The board will consist of a president, vice-president, secretary, treasurer and two other members. These officers will be elected at a meeting to be held next Tuesday evening at the Veterans of France. The V. D. F. A. had elected its officers for the season, but they will step down in favor of the new board.

By the appointment of a board of impartial members it is believed that much of the petty bickering which has injured the game here in the past will be eliminated. The board will decide on just what teams will play in the various divisions. This will overcome the heated discussions which usually attend meetings at which new teams attempt to get into certain leagues.

No More Weekly Meetings. The regular weekly meetings of the V.D.F.A. will be done away with as soon as the board is appointed. In the past the delegates from the various clubs have been called together each Tuesday to transact business, and some of the meetings have witnessed warm times, due to the fact that some delegate would be anxious to score something for his name. The new board will deal with all questions in an impartial manner, having no direct interest in any of the teams engaged.

At last evening's meeting it was made clear that entries for all leagues must be in the hands of the secretary, Billie Cull, by Tuesday of next week so that the board may go right ahead and draft the schedules. The entrance fee for the first division will be \$7.50, for the second division \$5, and for the junior division \$3. Teams which are anxious to play in any of the leagues this season and fail to enter before next Tuesday will be out of luck.

Soccer Season Opens September 23. It is expected that the soccer season will stage its grand opening on Saturday, September 23. Nothing is known of the composition of the first division as yet, but there is a belief that there may be six teams in the circuit.

The Wednesday Football League will hold a meeting to-morrow evening at 8 for the second division. Nothing is known of the composition of the first division as yet, but there is a belief that there may be six teams in the circuit.

The Wednesday Football League will hold a meeting to-morrow evening at 8 for the second division. Nothing is known of the composition of the first division as yet, but there is a belief that there may be six teams in the circuit.

Golfer Who Proves Sensation In Play For U.S. Amateur Laurels

This youngster has been playing good golf for a couple of years but he started out this season as though he intended to clean up the world and he went a long way towards achieving his object. He commenced his string of victories by defeating George Von Elm in the finals for the trans-Mississippi title. In the U. S. amateur golf championship which was conducted last week he provided all the thrills. He started out by conquering William Torrence, the English star, by 2 up and followed this victory by knocking Frances Outlet out of the running by 3 and 2. His third straight surprise came when he defeated Cyril Tolley, the former British amateur champion by 2 and 1. Knepper reached the semi-final but lost his nerve before the steady playing of "Chick" Evans. Knepper, however, is young and will be heard from again.

Soccer in Canada Due For Big Boost

FINNISH RUNNER SETS TWO WORLD'S RECORDS

Stockholm, Sept. 13.—Two world's records were made by Paavo Nurmi, Finnish runner here yesterday. In the five thousand metres event he clipped one second from the former record of 14 minutes 36.5 seconds. He did the three-mile run in 14 minutes 8.4 seconds. The former record was 14 minutes 17.6 seconds.

OLD COUNTRY FOOTBALL. London, Sept. 13.—Yesterday's English football results:

Third Division—Northern Section, Nelson, 2; Halifax Town, 0.

BRITISH YACHT IS FIRST TO FINISH

Oyster Bay, L. I., Sept. 13.—For the first time in the international six-metre yacht races being held off this place for the British-American Cup, a craft of the visiting team was the first to cross the finishing line to-day. Despite this honor, which was captured by the Jean, the property of Sir John Ward, the American team won yesterday's race.

The next race will be sailed on Thursday.

Jimmy Adam, B.C. Representative, Back From Annual Meeting of D. F. A. With Optimistic Views of Future of Game—New Officers Are All Clean-cut—West Got All It Asked

Football in Canada is, due for a great boost as a result of the efficient officers elected to govern the affairs of the Dominion Football Association, according to Jimmy Adam, one of the representatives from the British Columbia Football Association to annual meeting of the D. F. A., held in Winnipeg, who returned home yesterday afternoon. Jimmy is highly pleased with the prospects and believes that football will make great strides in the future.

"The D. F. A. certainly has a clean-up, state-of-the-officers, remark Jimmy. I was greatly pleased at the way things went and the West got everything it wanted. The Western representatives were mainly responsible for the way the election went. There is no doubt in my mind but that under the guidance of these officers football will enjoy unprecedented prosperity."

To Rejuvenate Game. Jimmy intimated that several new schemes were under the consideration of the new officers. An emergency committee is at present considering the Connaught Cup series, which determines the football champion of Canada. Just what changes will be brought about is not known.

The series has always been in the nature of a gamble and it is a costly proposition for Western teams, especially if they have to go to Toronto for the finals. The finals have to be played where a big gate is assured.

Jimmy did not have much to say regarding the financial statement of the Scottish International tour. The whole thing has been scrapped. It was discovered that it would take the auditors a couple of months to get to the bottom of the statement, due to its fragmentary nature.

The new officers will immediately clean up all the old business. There are a lot of bills to be squared.

Good Bye to Old Guard. The McNeill-Roy combination, who got into a dispute with the financial statement on the Scottish International tour has been passed up forever. According to the constitution of the D. F. A., the retiring president always becomes past president but the constitution was amended and the word "shall" was changed to "may." McNeill did not become a past president.

Jimmy Adams announced that Lady Smith, which was runner-up in the 1921 Connaught Cup series, would receive a set of gold medals in place of the silver ones which were given out to them. Nansimo, which represented B. C. in the Connaught series this year, ran in the hole on the trip and the deficit will be made up by the D. F. A.

Calgary, Alta., Sept. 13.—That the Connaught cup finals in 1922 will be played in the west and probably in Winnipeg, is the opinion of "Bob" Stephen, president of the Alberta Football Association, who returned yesterday from Winnipeg where he attended the three days' conference held by the Dominion Football Association.

Winnipeg being so centrally located between the east and the west is the logical place for the cup series and, considering that the emergency committee, consisting of the president, secretary and Manitoba representative, will do the selecting, it looks as though the Manitoba capital will be the scene of the 1923 finals. "Caruthers' Grounds, with a seating capacity for 3000, is quite suitable for staging the championship fixtures," Mr. Stephen added.

Mr. Stephen states that the famous Corinthian schoolroom, at St. Catharines, Ontario, which has been the scene of the 1922 final arrangements have yet to be negotiated.

EIGHT GAMES TO-DAY IN TENNIS TOURNEY

Philadelphia, Sept. 13.—The fourth round matches, eight in number in the United States national lawn tennis singles championship tournament, again held the attention of the tennis world to-day. Yesterday's rain prevented the play and the postponement will carry over the final until Saturday afternoon.

GRASS HOCKEY CLUB MEETING TO-NIGHT

The fourth annual general meeting of the Victoria Grass Hockey Club takes place this evening at Christ Church schoolroom at 8 o'clock. The president, Dean Quinlan, will take the chair. A really representative gathering is hoped for, as several important topics are to be discussed, among these being the question of Wednesday games and election of officers.

There will be a practice game next Saturday in Beacon Hill Park, when novices will be welcomed. It is hoped that the enthusiasm evinced last Saturday will be continued, and thus assure success for the coming season.

Get Ready for Hunting

Deer Season Opens Sept. 16
Grouse Season Opens Sept. 23

Our new Booklet of the 1922-23 Game Regulations tells you where you can hunt—get a copy to-day.

NICE GOING, CECIL

CECIL HAY

who during his holidays this Summer has been showing the West something in sprinting. Cecil is in his fourth year medicine at McGill University, and is captain of the McGill track. Always a star runner while attending the Victoria High School he did not attract much attention here until he went to Vancouver last Summer and made a cleanup in the sprints in the British Columbia field. The visitors had the advantage in heavier ponies, while the local players were handicapped by lack of practice owing to recent rains.

To-day the "B" teams of both sides play, while on Friday the St. Charles "C" team will play a combination of Minneapolis civilians.

On Saturday the final game will be played between the St. Charles "A" and St. Charles "A" teams.

at the Theatre

DOMINION

William de Mille, producer of the screen version of Rachel Crothers' play "Nice People," did not see the original stage play until after he had purchased the film rights of the story. His choice of the story for his current production which comes to the Dominion Theatre all this week, was made largely on Clara Beranger's report. Mrs. Beranger adapted the play for the screen. "Nice People" to me might seem, "Mr. de Mille said in discussing his most recent photoplay offering, "I have never seen the stage production and from what little I knew of the story, I did not consider it as promising screen material."

"Mrs. Beranger on the contrary maintained that the story had tremendous photoplay possibilities. This led me to consider and eventually secure it for Paramount."

Clara Beranger will be remembered

"A Man You Will Love To Hate"

Ladies Keep Your Skin Clear, Sweet, Healthy With Cuticura Soap and Cuticura Talcum

for the last time. This William Fox society play with Pearl White has in it an appeal that touches us all. Snobs are not popular, and when they meet defeat at the hands of likeable democratic folk the result is usually to our liking.

ROYAL VICTORIA

Although scenarists and playwrights have dwelt endlessly upon the theme of mother love, they have been singularly neglectful of the equal longing for a mother of a full grown man who has never known the calming influence of home life. It remained for George V. Hobart to visualize the possibilities of such a theme in his stage play, "Sonny," an emotional drama which has been made into a screen production, and is the current first National attraction at the Royal Victoria Theatre.

Richard Barthelmess, who jumped to national fame recently by his wonderful work in "Tobacco," has realized the opportunity presented by "Sonny" in an excellent representation of subdued emotion and strong heart appeal.

The picture was directed by Henry King, who also directed "Tobacco."

CAPITOL

Richard Dix and John Bowers, both popular leading men, are seen in the support of Betty Compson in her new Paramount offering, "The Bonded Woman," which is attracting immense crowds to the Capitol Theatre this week.

At the beginning of the picture, an interviewer asked Director Philip E. Rosen, "Which one is the leading man?" "Both," replied Mr. Rosen.

This didn't satisfy the interviewer, so he sought out Albert S. Levino, who wrote the picture play from the late John Fleming Wilson's story, and put the question: "Is Dix or Bowers Miss Compson's leading man?"

"Neither," said Levino with a still more cryptic smile. "That is, neither one is so designated, because each has an equal chance for the girl until the end—neither has a lead until the final sprint in the last reel."

So the only way for you to find out which is which is by seeing the picture. There's little doubt that you will enjoy the task for "The Bonded Woman" is one of the best pictures shown here this season.

GIRL FROM TOKIO AT THE PLAYHOUSE

Second Week of Attractive
"Potted Opera" Opens
Here To-night

An undertaking which goes far to refute the oft-repeated cry that Victoria provides "nothing to do in the evening" is the new season at the Playhouse. Here under the capable direction of R. N. Hincks, the main musical comedy attractions of many a successful "run" are reproduced for the delight of a Victoria public in the guise of Potted Opera.

The third of this series which has already proved a first on the popular fancy is "The Girl From Tokio," in which a number of exceptionally tuneful and breezy songs and choruses are strung like bright beads on a slender thread of sparkling dialogue. The cast is notable for its uniform excellence. The title role is taken by Miss Justine Gilbert, whose charming voice and personality make of Ooto San a very demure and winsome little figure. Ernie Petch as Smith has a breezy part well suited to him, and contributes to the gaiety of the entertainment a number of splendidly rendered songs. Jack Petch acts and sings as well as the Mayor of Tokio, and Bob Webb is a humorously ponderous General Stake, while R. N. Hincks, who also directed "Tobacco," contributes his own special brand of fun. Elleen Allward is very dainty and charming as the title role's girl, Betty Turner, while Peggy Lewis and Eunice Campbell with Bun Hobday and Herbert Kent complete an excellent cast.

The beautiful scenes of the Japanese countryside, bowered in white cherry blossom under smiling skies are a notably attractive feature of the production. The picture is a gem of the kind which makes of the Playhouse a most enjoyable place to spend an evening.

The play will be produced on Wednesday and will be repeated every night this week, with a Saturday matinee, and the curtain rises promptly at 8.30.

An excellent vaudeville programme precedes the main attraction.

FOOLISH WIVES

UNIVERSAL HIT

Over 320,000 Feet of Film

Exposed in Making Picture

at Royal Next Week

More than 320,000 feet of film were exposed during the making of "Foolish Wives," the \$1,000,000 picture coming to the Royal Victoria Theatre Monday, Sept. 18. It would take 64 hours of almost three days and three nights to show such a length of film at the rate of speed to which moving picture patrons are accustomed. Therefore, Universal has trimmed the picture, using only the best parts of it, to 10,000 feet, which takes about two hours. It took exactly twelve months to photograph the picture. Cutting and editing it to the desired brevity took an additional six months.

VALENTINOS

GOOD LUCK ACE

Rodolph Is the Big Noise in

"Blood and Sand" at Dominion Next Week

To the average person any ace is lucky, and good fortune smiles with special brightness when four of them are found in a single hand. To the Spaniard, however, the Ace of Spades represents the epitome of good luck. And so it is that Rodolph Valentino is known as the "Spade" or Ace of Spades, in "Blood and Sand," his first Paramount star picture, adapted from the Vicente Blasco Ibanez novel by June Mathis and produced by Fred Niblo.

The "Spade" or matador is the Babe Ruth of bull-fighting. He is the Eddie Rickenbacker of Spain. For to him is entrusted the delicate, graceful cape play and the final sensational dispatching of the bull. And keeping in the spirit of the Spanish veneration of the Ace of Spades, the long matadorian sword is likewise called "spade."

"Blood and Sand" is announced as being one of the most colorful productions in years. It is a story of Spain and the life of a bull-fighter, giving all the verve and romance of such an existence without presenting those features of a bull-fight not enjoyed by American audiences. It will be shown at the Dominion Theatre, Sept. 18. Lila Lee and Nita Naldi have the leading feminine roles.

COUNT 'EM.

Christie Comedies will have six different leading ladies in their first five pictures this Fall, based on the line-up of the beauty brigade: Viora Daniel and Helen Darling appear with Neal Burns in the first picture, "That Son of a Sheik"; Vera Steadman plays the lead with Bobby Vernon in "Pardon My Glove"; Dorothy Devore is starred in "Let 'Er Run"; Charlotte Merriam, former Christie girl, has been re-engaged for the fourth comedy, a house-boating expedition; and Charlotte Stevens supports Bobby in the next picture of the series.

Vitaphone is working out the details of a massive spectacle, to be released early this Fall, based on the famous "Ninety and Nine." The big scene in this production is the driving of a train through miles of forest fire. The story is taken from Ramsay Morris' famous play. The screen version has been prepared by C. Graham Baker. An all-star cast is now being engaged for the production, which is filled with the atmosphere of the village and the lives of persons in the sparsely settled districts.

Luck is only a short way of spelling luck.

THE LONDON COLLEGE OF MUSIC

Its Standard of Efficiency.
(By a Local Representative)

One of the latest examining bodies to hold examinations in this city is the London College of Music of London, England, which held its second examination in Victoria recently. It stands among the foremost institutions of its kind in the world, conducting examinations throughout the British Isles, Canada, Australia, Tasmania, New Zealand, South Africa and India.

The Founder
Just over thirty-six years ago George Augustus Holmes, Director of Examinations at the present time, evolved the London College of Music system of examinations, which was destined to have such a far-reaching effect over the music not only of the United Kingdom, but of the world. The decision to bring into existence this scheme of examinations was not the result of a passing or immature thought, but was the outcome rather of considerable deliberation, coupled with much practical knowledge gained in the field of teaching, and which showed in the plainest possible manner what were the needs of the times.

Added to this, a critical observation of the conditions then prevailing throughout the United Kingdom revealed the continually growing taste by the public for the best and purest forms of musical composition, together with a more earnest interest in furthering the musical education of the rising generation.

To advance ideals such as these, and worthy of the best encouragement of those now deceased who served the college in its early days will be of interest.

From the outset Mr. Augustus Holmes was largely aided by his father, the late Thomas Weeks Holmes, who, although at that time of middle age, threw himself vigorously into the scheme in which he labored assiduously and rendered invaluable service, and for a very large number of years acted as secretary. The year 1887 were of a crude description compared to those now existing; they were held at wide intervals, and lacked the vital features which would constitute them as factors of any particular moment in encouraging the public to the study of music and the development of musical ideas.

Its Organization.

The preliminary organizing in the foundation of the London College of Music occupied some little time, and so the year above-mentioned the first examination was held under the scheme which cast aside obsolete methods of the past and placed the public a thoughtfully devised plan giving to teachers and their pupils for the first time a system of work of such unique value, which was incidentally to be the means of placing the London College of Music in the position of the foremost and largest musical examining body in the world.

Of the various features, for the promulgation of which the college set forth, and of which it was the originator the following may be of interest:

1. The institution of examinations three times each year (in Great Britain), or in other words an examination at the end of every term.
2. The total abolition of any age restriction in connection with examinations of whatever grade.
3. The extension of the grades, and the adjustment of fees in stages according to the grades.
4. The fixing of certain Provincial

Corns Go

Just say
Blue-jay
to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it!) and in extra thin plasters. The action is the same.

Pain Stops Instantly

centres where candidates would be enabled to sit for diploma examinations with exactly the same privileges as in London.

The foregoing points, so simple and clearly in their aims, and yet so far-reaching to everyone in anyway interested in music, were left to be unfolded by the London College of Music, although it was of course quite open at that period to any other institution already conducting examinations to have given the public these much-needed reforms had the necessities of the times been grasped.

Some Leading Names.

A reference to some of the names of those now deceased who served the college in its early days will be of interest.

First might be mentioned Alfred James Cadiot, Mus. Bacc. Cantab., whose name was a household word as a composer of cantatas, songs, part-songs, etc., and who was associated with the college both as an examiner and as principal for many years. William J. Westbrook, Mus. Doc. Cantab., whose name was especially familiar as the composer of numerous works for the organ. William J. Longhurst, Mus. Doc. Cantab., the famous organist of Canterbury Cathedral for many years, was a valued examiner on the college staff for a long period.

The present day patrons of the London College are the Duke of Leeds, the Earl of Howe, G.C.V.O., the Earl of Kinnoull, and Sir Albert K. Rolit, L.L.D.

G. Augustus Holmes is Director of Examinations, and F. J. Karn, Mus. Doc. T.B.T., Mus. Bacc. Cantab., is the Principal of the Education Department.

Last December examinations were the largest ever held in the history of the college. The major portion of the entire staff of over fifty examiners were engaged to their utmost capacities, but so extensive were the entries at certain large centres—such as London, Manchester, Liverpool and Newcastle-on-Tyne—that it became necessary for two, three, or even four examiners to be on duty simultaneously in order that the work might be brought to a conclusion within the month.

No better proof of the popularity of the examinations can be instanced other than by directing attention to their remarkable success. The examinations were universally recognized by the teaching profession and the public as valuable tests for students. Thus the enthusiasm which existed at the foundation of the London College of Music examinations has continued to increase from the

KAISER NO LONGER HIDES BEHIND FENCE

Now Plainly Visible As He
Saws Down Trees at
Doorn

Has Less Care to Dress;
Objects to Criticism of
Ebert

Paris, Sept. 12.—Now that he is rid of his officious aide-de-camp, who it was said was the instigator of the secrecy maintained at Doorn, the ex-Kaiser no longer hides from the stares of tourists who go to his Dutch castle home. Visitors to the town this summer—and these include hundreds of Americans—are not in any way prevented from getting a long look at the former Emperor as he strolls or buses himself about the grounds.

While admittance to the residence and grounds is still prohibited, the guard about the grounds has been reduced, and the big palanquin built by the order of the former aide-de-camp has been removed, so that Wil-

helm as he continues to saw down trees is plainly visible and can often be heard talking.

His favorite subjects for conversation are agriculture and shooting. Visitors report that he now looks much older and appears more carefree and neglectful of his dress. Whereas during the first part of his sojourn at Doorn the ex-Emperor would change his clothes four and five times a day; he now rarely changes for dinner.

Politics, according to his intimates, holds very little interest for him. The only trace left of his former power is exercised at the dinner table, where no one is allowed to speak unless he does, with the result that if the ex-Kaiser is moody and won't speak the meal is taken in silence.

He objects to all criticism of President Ebert and rebukes all jokes on his successor as head of the German nation. He still believes, however, that Germany will again become a monarchy, although he does not entertain the hope that he will be recalled. He expects one of his grandsons to be the next Emperor.

For visitors he invariably has one question: "What does the outside world say about me?"
Wilhelm was the first to take steps for a reconciliation with the ex-Crown Prince, who now is one of the most frequent visitors at Doorn. It is even reported that he will be authorized by the Dutch Government to leave Wieringen and live with his father.

SPOKE ON BUSINESS MENTAL ALERTNESS

Kiwanians Heard Excellent
Address by Business
Analyst

In an excellent and humorous address upon business principles before the regular luncheon of the Kiwanis Club yesterday, H. J. Wischaupt, business analyst, delighted the members with a clever review of business methods to-day. The optimist and the pessimist were operating only on half truths, held the speaker, who referred to the best mental attitude towards business, that of the "actionist." The man who without undue "nut optimism" or "nut pessimism" went out and did things was the man to succeed, held the speaker.

Mr. Wischaupt was accorded a hearty ovation at the close of an excellent address. The Misses Simpson delighted the club with several vocal numbers. William Darwin, an Australian officer visiting in this city, contributed a song. Kiwanians Harry Stuart and Mark W. Graham were the winners of attendance prizes given. A whistling contest between tables created a rare fan of merriment, ending in a blank decision. The luncheon was held at the Dominion Hotel, commencing at 12.14 p. m. before a good attendance of members.

VANCOUVER ISLAND News

MRS. F. C. HOLMES DIED IN DUNCAN

City Was Named After Her
Father

(Times Correspondence.)
Duncan—The death occurred early yesterday morning at the King's Daughters' Hospital, Duncan, of Mrs. Holmes, wife of Mr. Fred C. Holmes, Somenos.

The late Mrs. Holmes was the eldest daughter of the late W. C. and Mrs. Duncan, and was born on the old Duncan property, near Duncan Station. It was from her father that the city of Duncan took its name.

She leaves to mourn her loss, besides the widower, three girls and two boys, her mother, Mrs. W. C. Duncan, two sisters, Mrs. W. C. McAdam, Victoria, and Mrs. F. R. Gooding, Duncan, and one brother, Kenneth Duncan, M. P. P.

Her sweet disposition and kindly nature endeared her to all, and the deepest sympathy is felt by the whole district.

The funeral will take place on Thursday afternoon at 2 o'clock from the family residence, and afterwards at St. Peter's Church, Quamichan.

POTTED MEAT WAS CAUSE OF DEATHS

(Times Correspondence.)
Chemainus—The Rev. R. D. Porter, of Chemainus, has just heard of the sudden death of his sister, Mrs. Anderson, in Scotland. With a shooting party of three gentlemen and three ladies with two gillies she had gone to Dingwall, on the west coast, near the Hebrides. At an inn they were provided with a lunch of sandwiches made of potted meat. All felt well until next morning, when one or two of the party complained of

double vision. This was later followed by paralysis of the throat, and one after another the whole party died in a few days.

CLEARER RULES FOR HUNTERS DESIRED

Sooke Harbor Association
Urges Changed Definition of
Areas for Deer Hunting

(Times Correspondence.)
Sooke Harbor.—A. N. McNamara brought forward at the meeting of the Sooke Harbor Development Association, Monday evening, the matter of the ambiguous definition of the boundary lines as laid down by the Game Conservation Board for the hunting of deer upon the Island, a definition which he said was likely to cause public danger as well as a great deal of trouble in the Sooke district. After considerable discussion and evident indecision generally, as to what the boundary lines as at present published actually meant, Mr. McNamara offered the following resolution:

"Whereas the definition of the boundary lines as published by the Game Conservation Board for the hunting of deer upon the Island is very ambiguous and likely to cause public danger and a good deal of trouble in the Sooke district, be it resolved that the secretary of this association write to the chairman of the Game Conservation Board, M. B. Jackson, K. C., M. P. P., requesting that the words 'all that portion lying to the south of the Esquimalt and Nanaimo Railway grant, east of Sooke River and Sooke Harbor' be changed to read 'starting from the lower end of the Finlayson Arm, to the Goldstream Hotel, thence along the Goldstream cross road to the Sooke road, thence along the Sooke road to Parsons Bridge, leaving the whole of the remaining portion now closed open for deer hunting.'"

This was seconded by William Clay and unanimously carried.

Other minor matters of local importance were discussed and for the next monthly meeting, the hour being late.

Dance Planned.

It was decided to put on a fancy dress dance on Friday, September 23, in aid of the fund of the Association, and the following were appointed to act as a special committee in charge of this event: Dr. Richard Felton, William Clay and W. Miller Higgs. Upon the adjournment of the meeting this committee remained behind to discuss the details. Special prizes for ladies and gentlemen will be given, a special supper provided and the best of music arranged for, and it is hoped that there may be a large attendance from the whole of the Sooke District, as well as from Victoria, Metehosin, Happy Valley, Colwood, Luxton, East Sooke, Otter Point and Jordan River. A very enjoyable time is promised, and the work which the Sooke Harbor Development Association is doing, not only in the matter of the development of Sooke Harbor, but in the general interests of the southwest portion of the Island, is worthy of united support.

Many Visitors.

The Sooke Harbor District is becoming more popular as a summer resort each year, and this year all previous records have been passed for the numbers of touring cars and others which have visited this beautiful spot. The opening of the Sidney-Anacortes ferry service has had a very marked effect in this direction. On Sunday last it was a record day at the Sooke Harbor Hotel for the number of cars parked there, while visitors enjoyed their luncheon or tea and took a stroll through the picturesque grounds overlooking the winding Sooke. Over forty took luncheon in this popular resort, which is open the year round, while there was a continual stream of visitors for tea later in the day. A very busy season is anticipated in connection with the duck shooting. All kinds of duck flock to the waters of Sooke Inlet every year. This year the additional means of transportation to and from Sooke Harbor to be provided by the C. N. R. should be an acquisition to sportsmen.

Regains Strength.

Mr. Clay is expressing his thanks to the many friends who extended kindnesses to him and his wife during the long illness which Mrs. Clay has gone through. Mrs. Clay is rapidly regaining strength, and is about once again.

A New Industry.

William Clay is now producing a first class pressed brick, of a soft gray color, which he claims can be supplied at a price very much lower than the price of common red brick heretofore delivered and used locally. This is an artistic brick, and its effect in open fireplaces and chimney stacks is very pleasing.

WILL APPOINT PUBLIC NURSE

(Times Correspondence.)

Luxton.—The question of the Public Health Nurse in the districts covered by the Esquimalt Rural Nursing Service was amicably settled at a public meeting held Monday night in the Luxton Hall, resulting in a vote of confidence in the present committee, and as a whole being passed with but one or two dissentients, on a motion of Mr. Carter, a resident of Happy Valley, seconded

by Mrs. Bryce, also of Happy Valley, and endorsed by W. O. Sweatman, of Metehosin.

Mr. Baker, of Luxton, acted as chairman and Mr. Smedley as secretary of the meeting.

The chairman opened the meeting by announcing that the people had met to discuss the question of a district nurse and drew attention to the fact that there was no nurse at present serving the district. Miss Gamble's term of office having expired August 12. At the request of R. I. Van der Byle and J. Stuart Yell, Mrs. Stockand and Mrs. Robert Brown, of Happy Valley, who along with several others including Mrs. E. Peatt, president of the Colwood-Luxton Institute, were instrumental in calling the meeting, stated their reasons for calling it. To their belief it was in the best interests of their district.

Several members of the committee were present, including the president, G. D. Sloan. The matter was thoroughly discussed and the misunderstanding with regard to the action of the committee in the matter of Miss Gamble's resignation was satisfactorily cleared up.

Miss Gamble's work in the district as Public Health Nurse during the past two and a half years was highly commended by several of those present, including A. Peatt, of Colwood.

Mr. Sloan, on behalf of the committee, in replying to Mr. Carter's vote of confidence, assured the people that it was not on account of any negligence of the part of the executive committee that a nurse had not been obtained before this time. They had made every effort to supply the district with a suitable nurse and

with the assistance of Dr. Young, Provincial Health Officer, it was hoped that a new nurse would take up her duties within the next few days.

TO DISCUSS TAXES

Retailers to Confer With the City Council.

Following the decision of the retail section of the Chamber of Commerce to investigate taxation problems, the following commission has been appointed to deal with the City Council's proposal to raise revenue by a change of trade licenses to a fee based on rental value and other phases of the question:

Lumber manufacturers—Mr. A. Gonnason and Mr. W. H. Munzie. Manufacturers (wholesale only)—Mr. A. G. Beach and Mr. H. J. Pen-dray.

Wholesalers—Mr. L. W. Slaide and Mr. L. H. Hardy.

Real estate and insurance—Mr. James Furman and Mr. F. Landsberg.

Retailers (downtown area)—Mr. J. D. O'Connell and Mr. E. Gamlen.

Retailers (outlying districts)—Mr. F. Burridge and Mr. Joseph Pennell.

Department stores—Mr. G. A. H. Porte and Mr. R. J. Hennessey.

Auto and accessory dealers—Mr. H. A. Davis and Mr. R. A. Playfair.

Doctors and lawyers—Mr. Lindley Crease, K. C., and Dr. Book.

Bankers—Mr. W. W. Symons and Mr. W. Hargrave.

Office building proprietors—Mr. R. Robertson and Major C. Holmes.

Your Boy, For Instance

Your boy can be interested in his own future.

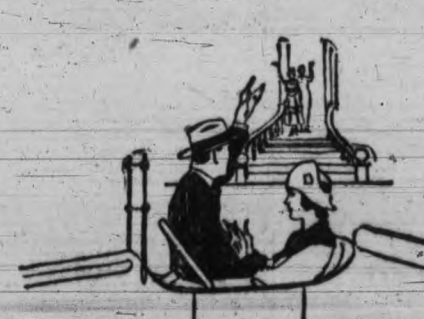

His ideas will be "stepped" by the knowledge of your plans for him.

His "preparation" expenses are provided for "no matter what happens."

Later on his training helps to win confidence,

Leading to his ultimate success, and your deep satisfaction.

If your boy or girl could speak now with the wisdom of later years, they would ask, above all else, for education, training for business,—a real start in life.

Every parent knows that the boy who has training is selected for a good position; and the girl who has the right start can make a place for herself in the world, and always be sure of independence and happiness.

You want your children to be equipped for the battle of life, as others are.

Make Your Plans Secure

Why not provide, as many parents are now doing, that "no matter what may happen" your boy or girl will have the advantage of a good start in life?

In these times they need training and the help you can give as never before.

See what the Canada Life can do with the new

Educational Policy

It will provide immediately, if you should die, an educational fund, to be held in trust at interest for your child's training.

This fund cannot be touched by the child until the date set by you has been reached.

It will then be paid in eight separate payments, six months apart, to cover the four vital years of training.

If you should live, the cash value of the contract, with dividends, will be available at any time to carry out any of your plans.

Nothing could be more simple—the funds provided—your plans made definite and secure—whether you live or die.

You have probably thought this matter over many times. Here is a chance to do something—tangible, immediate, yet quite easy.

Why not find out now what the educational policy will do for your child? This will not put you under any obligation.

Canada Life Assurance Company

P. B. FLEMING

DULL SESSION AT PUBLIC MARKET

The Victoria Public Market was dull this morning, many of the booths being vacant, the stallholders finding it not worth while to attend. Very few buyers attended and some extremely low quotations were reached as a result. Italian prunes were selling at 75 cents a crate, twenty pounds to a crate, while straw-

berries were moving at two baskets for 35 cents. Tomatoes were being picked up at 8 pounds for 25 cents, while the grade 1 variety was quoted 10c and a dozen.

Corn is at 35 cents a dozen; the season it was stated, would soon be over. Pickling onions were introduced on the market at a quotation of 4 pounds for 35 cents. Eggs were advanced again at the mid-week session, five cents being the fluctuation. They are now demanding 45 cents a dozen.

EXCHANGE SUMMARY

New York, Sept. 12.—Foreign exchange today.

Great Britain—Demand, 4-4 1/4; cables, 4 1/2; 60-day bills on banks, 4 1/4.

MARKET REACTS IN NEW YORK

(By Burdick Bros., Ltd.)

New York, Sept. 12.—For the first time in quite a while the stock market displayed rather distinct reactionary tendencies. Of late, the dealings have been largely confined to specialties with a fair amount of southern buying being attracted by the advances, but in the past few days such buying has shown a tendency to contract, with the desire to realize on long lines more pronounced. We think the market is beginning to feel the weight of profit-taking and distribution which has been accomplished recently, and we believe that advantage should be taken of current levels to reduce long lines. As gauged by the borrowing market, the short interest has decreased very materially.
